Sen.5.9.01 Approval of 2030 Educational Master Plan and Facilities Master Plan

Motion Author: Dr. Bryan Reece

(Action Item)

The Associated students of Norco College will approve the 2030 Educational Master Plan and the Facilities Master Plan.

President: If no objections, I would like to move this Senate Item to 3:00 PM.

Motion: Aimee

Second: MK

Dr. Collins: Hello everyone, I have the final draft of the Facilities Master Plan and the only thing changed was the phasing of the project. The key plan drivers are student transformation which basically means promoting student success through academic growth. We want to promote college transformation as well by creating a comprehensive campus environment and then regional transformation because our region is growing fast and we have to keep up with it by 2030. We have a deficit today of 107,262 square feet and you only need 60,000 square footage to fit a two story building. With the plan, we are also expecting a 118% increase by 2025. We will be taking out parking lots for a lot of our expansion and replacing them with food, retail shops, coffee shops, etc. The plan includes adding a fitness center and making LRC a two-story building.

Nathaniel: Are there any potential sports team plans?

Dr. Collins: We did call that out in the Master Plan. It is possibly considering a softball, track and field, and basketball teams. Also, possible housing for students and homeless veterans as well is being considered. There was an area proposed for Agricultural studies.

Nathaniel: Can the campus possibly become a 4-year institution instead of a 2-year?

Dr. Collins: No, not yet.

Aimee: Will there be space for a homeless center?

Dr. Collins: This hasn't been discussed, but Foster Youth Center and housing has been discussed in the Master Plan.

Aimee: Would the tuition increase?

Dr. Collins: No, it would not affect the tuition.

President: Does this plan have an expected student success increase percentage?

Dr. Collins: There hasn't been one made out in the plan yet.

Edwin: Will there be revenue generation for athletics?

Dr. Collins: The only revenue generation would be for facility use.

Aimee: Where would money for sports come from?

The Chair reserves the right to modify the order of business as it deems appropriate.

Dr. Collins: The district will be providing funding to move forward. Phase 3 is planned to finish in 2030.

We have a open house on May 14th at 12:50 PM-1:50 PM in CSS 217. We have a microsite for community support and student feedback.

Website link: <http://norco-college-fmp-microsite.webflow.io/>

President: So if there are no objections, we will divide the vote.

Educational Master Plan Presentation:

Dr. Reece: With an educational master plan, you try to figure out where you want to take the college in the next 10-20 years. We have been working on it for 2 years, and have showed it to all the shared governances. Before you is the 5-year Strategic Plan which shows the goals of Norco College.

Nathaniel: Goal 13 is to help make Goals 1-12 happen?

President: Yes, we do need funding for all the goals to happen.

Nathaniel: Those who are able to attain housing, would they need a job to be able to live here?

Dr. Reece: They can pay for housing through numerous ways. For example, GI Bill for veterans. Some may have jobs and some may use financial aid.

There is also a plan in place for a possible BA in engineering.

President: Is there anything in place for incarcerated students?

Dr. Reece: Objective 26 in the packet. There is also a possibility for a jail time decrease for those who do their Associate's and Bachelor's and even a forgiveness for those who do their Master's.

Sarah: I would like to move to extend this meeting to 4:10 PM.

Damien: Regarding equity, I think it would be easier to eliminate it by surveying professors.

Dr. Reece: That is a good point.

Voting: Approved Unanimously

IX. ASNC Advisor Report

Edwin: The fee increase voting concern has gone to the Vice President and the District Strategic Planning Council. They will be considering the fee increase and will be helping it move forward. If we stay on track, the board should hear about this in June. If it does not go through, we will have another election in the Fall for the Transportation fee. I am supporting a cause called Karol Kares which promotes hygiene products for homeless and foster youth. We are trying to partner up with Phoenix Scholars. Do not forget to register. If you need registration assistance with the new website, there will be workshops held in the Library. We have two more Senate meetings for the semester.

X. Executive/Committee Reports

Administration: The ASNC elections went well and we gave away a lot of ice cream.

President: When will the results be out?

Edwin: By the end of the day today.

Finance: No report.

Edwin: I received a message from the district saying we went over the budget by \$17,000, so we need to figure out what happened.

Shawn: \$700 maybe, but not \$17,000.

Activities: We got a bigger stage for Nomu for \$90. Please let people know that Lot D will be closed starting the 23rd. We are still working with clubs that want to be involved so let me know if you know anything about that. Autumn wants to bring bugs for charity and they will be flavored.

Relations: We got a keyboard for the iPad. ASNC shirts and Nomu shirts were ordered.

The Chair reserves the right to modify the order of business as it deems appropriate.

Organizations: GSA dance is tomorrow from 6-11 PM. CJSU is doing a donation drive in Lot B this Saturday from 8-11 AM. E Sports is having a game night tomorrow. Thank you for those who helped me out for the ICC banquet.

President: Dr. Fleming and I have decided there will be no beer and wine garden, but it is a possibility for next year. I have a meeting next week on Thursday with Dr. Reece from 1-11 AM and Dr. Tarrant from 12-1 PM and it is my last one so whoever is interested in coming with me let me know. It will be a long meeting since there is a lot to go over. Committee of a Whole is next week, so please try to come out.

Academic Senate- Angelica

Angelica: Dr. Reece came in to get Academic Senate's approval for the Master Plan. They approved for the draft of changing student employment, because currently tutors have to be apart of the RCCD district but they want to change that and allow other students who have transferred or attend another school to be able to tutor Norco College's student. It was approved.. Academic Senate voted on the Facilities Master Plan. That's it for my report.

Business and Facilities Planning Council- Autumn

No meeting. Next meeting on 5/14.

Curriculum Committee- Francisco

No meeting this week.
