\$1000 for each student. Wants to have a GA for our district. Proposing idea of a reoccurring conference for our district, which this money will be used for. Asking every college in our district for financial assistance.

Discussion:

Tristan: I believe you should be asking for this budget from the district not ASNC.

Abby: You will only be using \$1000, where is the rest of the budget going?

Hussam: You should think about this conference idea and have a breakdown of the budget then bring this forward again.

Voting: 14 against

Results: Unanimously against

Graves: Need space to learn and have meetings for volunteering programs. Graves states that it is time to fund and show support to Americorps and College Corps. Brought it to ASRC; was approved.

Discussion:

Tristan: How will you know that there will be more students who will benefit from this, not just students already in the program.

Cole: Have you confirmed that there is space available for these offices?

Graves: No, it is not. This is a well-defined strategic plan as of right now; asking for support in favour of. Thinks this will incentivize more volunteering programs.

Ethan: If ASNC approves this, will we be expected to act on?

Graves: No, this is just for ASNC to talk about and act in support of. Just looking for student support.

Results: Approved by consensus

Dr. Tarrant: Thank you all for doing all the work that you do and keep going.

Kambrey: By law there is a need for recycling bins and more trash cans. There is a lot of trash around the campus. We need to get funding for new trash cans to keep the campus clean for the students and the wildlife. There is a lot of plastic pollution from materials that are used in events which gets consumed by animals. Start using biodegradable materials.

Graves: Remember you are representing students that appointed you to be a student leader. Make sure you are doing your best in the role that you play in leadership. Great work and reach out to me if you need help. Look over the bylaws and continue to keep looking over them to make sure they align with ASNC.
