Hello Mustangs! My name is Tamilore Ajayi and I am running to be your Vice President of Campus Activities. I have had the honor of volunteering at numerous campus wide events and I would love the opportunity to oversee them. As Vice President of Campus Activities, I would make sure every Mustang's experience at Norco Community College is memorable. It would be a priority of mine to make sure all students find community within our campus, foster positive social change and value difference. Campus activities are a resource center that connect the college experiences of students, staff, faculty and visitors to the entire community. My core values are to provide students with leadership opportunities, creative expression, character building, social responsibility and encourage attentiveness for the social needs of students and our campus as a whole. You won't regret choosing me to enrich our Norco College Campus life and build community through activities. Go Mustangs!
