Survey comments (Q3) included:

"It seems like there are times where we focus on the "rules" (Robert's Rules of Order) more than the content/charge. I recognize that having some type of formalized procedure process is important, and we are "getting to the meat" on many topics/issues. However, there have been a handful of times the conversation devolved into, "is this the right process/are we on the correct agenda item, does someone need to motion before we can discuss that?" I, again, appreciate the formal process, and maybe and just not a huge fan of Robert's Rules. Also, I do believe there are some areas where we need more training, before addressing a particular agenda item. But we have recognized the need for additional training and will be providing/developing these trainings."

"Clarify the long-term direction and purview of the group. Prioritize activities and agenda items to maximize group effectiveness. Allow more time to consider actions and obtain constituent feedback before voting on strategic changes. Send a call for agenda items to members. Include a standing update on status and progress towards goals and deliverables at meetings. Develop a timeline including milestones. Include more details on actions and voting items sent for consideration in preparation of meetings."

"Sometimes more clarity and explanation can go a long way for those who aren't as familiar with the formality of councils. People tend to stay quiet when they aren't sure about the structure and correct way to address something."

"Workgroups were slow to get moving this year. Needs to be a stronger commitment from members to advance our work outside of meetings."

In discussion, members suggested some ways to improve such as: Formal request for agenda to include brief descriptions with agenda item, Outline appropriate items – mapping, Allow first and second reads, and Prioritize activities – overall and within the agenda.

INSTITUTIONAL SET STANDARDS- 2022

PRESENTATION TO IEGC
DR. GREG AYCOCK

NORCO
COLLEGE

INSTITUTION SET STANDARDS

- Institution-Set Standards (ISS) are comprised of two elements: floor performance and stretch goals.
- The floor performance is the level that marks when the institution is moving into a “danger zone” for a specific outcome area.
 - Floor Performance Methodology- Floor set by calculating the value of one-half a standard deviation below a 5-year mean. Floor is stable for the time of the Strategic Plan (established in ISPC Spring 2019).
 - Stretch Goal Methodology – aligning with established framework (e.g. Vision for Success, Guided Pathways, local goals).
- When values fall below the ISS for at least 2 years, a procedural response which addresses what will be done to raise outcomes in the area is required by ACCJC.
