

Program Review - Overall Report

Instructional: Kinesiology

Data Review

2021 - 2024

Overall Trends

What overall trends do you see in success, retention, program of study, educational planning, and awards over the past 3 or more years?

KIN numbers typically exceed the college averages, and this trend continues as evidenced by data from 2016-2020.

Data Review

Gender	Ethnicity	enroll_ct	Success	Success Rate	DI	Close Gap	Academic Year
Female	African American	697	572	82.1%	0	113	2018-19
Female	Asian	320	281	87.8%	0	113	2018-19
Female	Hispanic	3,806	3,225	84.7%	0	113	2018-19
Female	Native American	48	44	91.7%	0	113	2018-19
Female	Pacific Islander	28	22	78.6%	0	113	2018-19
Female	Two or More	69	55	79.7%	0	113	2018-19
Female	Unknown	65	54	83.1%	0	113	2018-19
Female	White	1,173	1,032	88.0%	0	113	2018-19
Male	African American	1,187	1,020	85.9%	0	0	2018-19
Male	Asian	373	337	90.3%	0	0	2018-19
Male	Hispanic	3,171	2,742	86.5%	0	0	2018-19
Male	Native American	40	37	92.5%	0	0	2018-19

Male	White	1,273	1,121	88.1%	0	0	2018-19

Data Review

Disaggregated Student Subgroups

Look at the disaggregated student subgroups in success, retention, program of study, educational planning, and awards for your area. Are there any equity gaps that you will address in the next 3 years?

We do not have any equity gaps that are concerning. KIN has exceeded the college's averages in all areas.

Gender by Ethnicity	std10	Annual	Count of StudentID
Female	Amer Ind/Alaska Nat	2019-20	1
Female	Black	2019-20	2
Female	Hispanic/Latino	2019-20	17
Female	Unknown/Unreported	2019-20	1
Female	White	2019-20	6
Male	Asian	2019-20	3
Male	Black	2019-20	2
Male	Hispanic/Latino	2018-19	1
Male	Hispanic/Latino	2019-20	33
Male	Unknown/Unreported	2019-20	1
Male	White	2019-20	2

If there are any concerning trends over the past 3 or more years, or if equity gaps exist, what is your action plan to address them?

None.

Is there a resource request associated with this Data Review? (If yes, please complete a Resource Request, which you can access from the main menu to the left)

No

Assessment Review

2021 - 2024

Section 1: SLO Assessment Status (Based on Dashboard - Assessment Status)

Which Disciplines are included in this Assessment?

KIN

What percent of SLOs in the disciplines you identified above have been assessed?

51

Which SLOs have not been assessed and why? Identify both the Course and the associated SLO(s).

Most of the courses listed as unassessed are not offered at our college. Those that are offered will be assessed in the umcoming cycle.

Section 2: Mapping Status (Based on Dashboard - Mapping Status)

Are all SLOs mapped to at least one PLO?

No

If all SLOs are not mapped to at least one PLOs, please explain why.

78% of KIN SLO's are mapped, with 21 remaining to be mapped. This was an oversight, the discipline had believed that all SLO's were mapped prior to accreditation.

Are the appropriate SLOs mapped to GELOs? (If you have a course that is listed in any general education area, it should have at least one SLO mapped to at least one GELO)

No

If the appropriate SLOs are not mapped to GELOs, please explain why.

92% are mapped with only 2 courses not completed. the intermediate yoga and the soccer classes will be mapped in the next cycle.

Section 3: PLO Analysis (Based on Dashboard - Analysis: PLO Direct Assessment)

Which Programs are included in this Assessment?

KIN

Please identify the PLO(s) - and name the associated Program(s) - that achieved benchmarks.

PLO 1 Identify and investigate career pathways in the discipline of Kinesiology

PLO 2 Utilize fitness principles and training guidelines to plan and practice an individualized cardiorespiratory endurance, strength training, and flexibility program.

PLO 3 Demonstrate an understanding of basic anatomical and physiological principles.

To what to you attribute this success?

A coordinated curriculum across all coursework.

Please identify the PLO(s) - and name the associated Program(s) - that did not achieve benchmarks.

None.

Assessment Review

If there are PLOs that did not achieve benchmarks, what do you plan on doing to improve benchmark attainment?

None

Section 4: Alignment to Career and Transfer

Describe the process used in this area to ensure programs (PLOs) align with career and transfer needs.

KIN faculty are immersed in the discipline and align our curriculum with evolving trends in the academic and vocational spheres within KIN.

Describe the activities, projects, and opportunities this program offers to support experiential learning and alignment of programs to career and transfer (e.g. capstone projects, portfolios, service-learning opportunities).

A major effort has been the creation and care of the KIN Majors club where members are exposed to opportunities within the discipline through guest speakers and field trips.

Without looking at your current PLOs, describe some program outcomes which would best help your students continue on the path towards their workforce and transfer goals (e.g. subject matter expertise, hands on experience, partnerships, etc.).

The ADT as well as our other courses transfer well making them useful for students continuing with the KIN education. The practical aspects of leaning about the impact of lifestyle on health may be difficult to assess, but will have long term benefits for the students.

Review current PLOs. Do the outcomes listed above align with the current program outcomes?

Yes, they do.,

Program Review: Part 1

EMP GOAL 1. Expand college access by increasing both headcount and full-time equivalent students (FTES).

GOALS AND ACTIVITIES

What are you doing now in support of this goal?

KIN courses do not require prerequisites and appeal to the physical, emotive, and intellectual needs of our students.

What are your plans/goals (3-year) regarding this goal?

We intend to stay current with healthy trends and revise courses as necessary to continue meeting the needs of the students.

EVIDENCE

Do you have assessment data or other evidence that relates to this goal?

Retention and success rates exceed that of the college as a whole.

RESOURCES

Is there a resource request associated with this EMP Goal? (If yes, please complete a Resource Request, which you can access from the main menu to the left)

No

EMP GOAL 10. Build a comprehensive and inspiring campus integrated into the region that serves as a destination for education, commerce, life, and the arts.

GOALS AND ACTIVITIES

What are you doing now in support of this goal?

We currently offer courses for Athletics and support the program and coaches. The sports increase community awareness of the college and generate support. The option of competing at the collegiate level appeals to many of our current and potential students.

What are your plans/goals (3-year) regarding this goal?

We intend to support expanding the sports related courses and hope to increase our capacity through an increase in instructional space, including new sports facilities and instructional spaces.

EVIDENCE

Do you have assessment data or other evidence that relates to this goal?

KIN success and retention goals exceed the average of the college as a whole.

Program Review: Part 1

Academic Year	Race/Ethnicity	# Enrolled	DI	Retention Rate	PPG
2019-20	African American	3	0	100.0%	97.5%
2019-20	Asian	1	0	100.0%	97.5%
2019-20	Hispanic	65	0	96.9%	97.5%
2019-20	Native American		0		97.5%
2019-20	Pacific Islander		0		97.5%
2019-20	Two or More		0		97.5%
2019-20	Unknown		0		97.5%
2019-20	White	12	0	100.0%	97.5%

RESOURCES

Is there a resource request associated with this EMP Goal? (If yes, please complete a Resource Request, which you can access from the main menu to the left)

Yes

Program Review Part 2

2021 - 2024

Curriculum

Are all your courses current (within four years)?

No

What percentage of your courses are out of date?

25% - 11%

If you have courses that are not current, are they in the curriculum process?

Yes

For out of date courses that are not already in progress of updating, what is your plan?

Courses are always reviewed and revised. The report states that 5 of our 39 courses are not updated since 2017, some of them have been renamed or newly added to our college.

Do you have proposals in progress for all the DE courses you intend to file?

No

Do you require help to get your courses up to date?

No

Program Review Reflections

What would make program review meaningful and relevant for your unit?

An alert system that would send notificatoins whenever our numbers start to decline below college averages.

What questions do we need to ask to understand your program plans, goals, needs?

Please keep in mind that KIN and athletics are combined, which brings multiple college personal and programs into our system, such as the Dean of Student Life.

What types of data do you need to support your program plans, goals, needs?

We have sufficient data.

If there are any supporting documents you would like to attach, please attach them here.

KIN-16:Introduction to Athletic Training

SLOs	Assessment Methods	Results	Changes Made
<p>SLO 1 - Analyze the history, ethics, liability involved in the athletic training field. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 2 - Support the need for professional development and continuing education requirements for athletic trainers. SLO Status: Active Approval Date: 09/19/2013</p>	<p>Project - The students will identify injury pathology</p>		
<p>SLO 3 - Discuss the role that anatomy, biomechanics, physiology, and psychology play in athletic injury management. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 4 - Compare and contrast the indications and contraindications for certain therapeutic modalities. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 5 - Assess specific athletic injury situations. SLO Status: Active Approval Date: 09/19/2013</p>	<p>Written Assignment - Students will access a specific athletic injury situation</p>		
<p>SLO 6 - Demonstrate basic prophylactic taping, wrapping, and bracing skills necessary for injury prevention for the major body areas. SLO Status: Active Approval Date: 09/19/2013</p>			

KIN-21A: Athletic Training Applications A

<i>SLOs</i>	<i>Assessment Methods</i>	<i>Results</i>	<i>Changes Made</i>
<p>SLO 1 - Demonstrate a working knowledge of emergency protocol for an athletic emergency situation. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 2 - Understand and demonstrate the ability to perform the following basic tape jobs/wraps: wrist, fingers, ankle, thumb, quadriceps, hamstrings and groin. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 3 - Apply and understand the basic knowledge and application surrounding modalities that are used in the athletic training facility (ultrasound, ice, heat, and electrical stimulation). SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 4 - Identify and effectively treat various types of wounds and blisters. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 5 - Demonstrate the preparedness of an athletic event based on an athletic trainer's point of view. SLO Status: Active Approval Date: 09/19/2013</p>			

KIN-29:Soccer Theory

<i>SLOs</i>	<i>Assessment Methods</i>	<i>Results</i>	<i>Changes Made</i>
<p>SLO 1 - Evaluate offensive and defensive systems used in youth, high school, college, and professional soccer teams. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 2 - Design integrative strategic practice, training, and game plans. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 3 - Apply scouting techniques and recruiting etiquette. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 4 - Assess techniques and strategies for positive teaching and coaching techniques and player evaluation. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 5 - Compare the rules of soccer used by different organizations. SLO Status: Active Approval Date: 09/19/2013</p>			

KIN-30:First Aid and CPR

SLOs	Assessment Methods	Results	Changes Made
<p>SLO 1 - Assess victims of injury and medical emergencies, and apply the emergency action plan for citizen responders: check the scene and victim, call 911, and initiate proper care for the victim; SLO Status: Active Approval Date: 09/19/2013</p>	<p>Performance - Testing requirements for First Aid and CPR practicum tests</p>	<p>Semester Assessed: 2013-14 (Spring 2014) Benchmark Met: N/A 99% passing rate (06/12/2014)</p>	
<p>SLO 2 - Evaluate their lifestyles for health and safety concerns and set personal goals for achieving a safe and healthful lifestyle. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 3 - Demonstrate bandaging and splinting techniques for the care of wounds, burns, sprains, dislocations and fractures; apply the techniques used for the prevention and treatment of shock; and demonstrate emergency rescue moves only when necessary. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 4 - During simulated scenarios using manikins, demonstrate cardiopulmonary resuscitation and the use of an Automated External Defibrillator (AED), and care for breathing emergencies on adults, children and infants using correct procedures and techniques according to the American Heart Association ECC2005 guidelines for BLS for Healthcare Providers; SLO Status: Active Approval Date: 09/19/2013</p>			

<i>SLOs</i>	<i>Assessment Methods</i>	<i>Results</i>	<i>Changes Made</i>
-------------	---------------------------	----------------	---------------------

SLO 5 - Describe the signs and symptoms associated with common medical emergencies and explain the first aid care that is needed in various scenarios.

SLO Status: Active

Approval Date: 09/19/2013

KIN-35:Foundation for Fitness and Wellness

<i>SLOs</i>	<i>Assessment Methods</i>	<i>Results</i>	<i>Changes Made</i>
<p>SLO 1 - Define the components of physical fitness as it relates to a wellness program; SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 2 - Describe and apply an understanding of the relationship of nutrition and exercise to weight management; SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 3 - Assess the negative effects of unmanaged stress, substance abuse, sexually transmitted disease and cancer to overall wellness; SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 4 - Evaluate a physically active lifestyle as a method of maintaining and improving fitness, wellness, and the overall quality of life; SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 5 - Design and practice a plan for the maintenance and improvement of physical fitness and wellness. SLO Status: Active Approval Date: 09/19/2013</p>			

KIN-36:Wellness: Lifestyle Choices

SLOs	Assessment Methods	Results	Changes Made
<p>SLO 1 - Analyze the seven dimensions of wellness and identify how they are both dynamic and inter-related. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 2 - Describe personal “triggers” for feelings of stress and employ strategies for living more harmoniously. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 3 - Demonstrate an increased level of self-awareness regarding one’s choices, behaviors, thinking patterns, and beliefs and how these impact their quality of life. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 4 - Identify lifestyle improvement goals and design corresponding courses of action. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 5 - Assess the quality of his or her personal health care coverage and identify additional health care options. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 6 - Practice problem solving techniques with regard to resolving addictive patterns and behaviors. SLO Status: Active Approval Date: 09/19/2013</p>			
<p>SLO 7 - Compare the connection</p>	<p>Project - The purpose of this</p>	<p>Semester Assessed: 2013-14 (Spring 2014)</p>	

SLOs	Assessment Methods	Results	Changes Made
<p>between food choices and the opportunity for optimal health and wellness.</p> <p>SLO Status: Active</p> <p>Approval Date: 09/19/2013</p>	<p>assessment was to discern how well students understood the energy balance equation as it relates to weight change. One aspect of this equation is caloric intake which includes food choices and portion sizes. The second aspect of the equation is related to caloric expenditure.</p> <p>In order to understand how the energy balance equation is interpreted, a key concept is understanding that the one pound is equivalent of 3500 Kcals.</p> <p>Students were assigned a project with utilized the government website entitled myplate.gov. They were asked to complete caloric intake and caloric expenditure for a 24 hour period. Not only were results submitted, but students were also required to complete an interpretation of the results.</p> <p>The area that I assessed tapped into the first four questions of their interpretation. The questions are as follows:</p> <p>1 - How many calories did you consume?</p> <p>2 - What is your total calorie target?</p> <p>3 - If your results were the same each day, would you be in the process of gaining, losing, or maintaining your weight?</p> <p>4 - What would your weight change be per week?</p>	<p>Benchmark Met: N/A</p> <p>A total of 58 project interpretations were submitted (2 course sections were assessed). Of those who completed the interpretation, results demonstrated the following:</p> <p>1 - All students completed questions 1 & 2 correctly</p> <p>2 - With regard to question 3, 44 of 58 (75.8%) students were proficient in determining how/if weight change would occur.</p> <p>3 – With regard to the ability to accurately calculate weight change per week (question 4), only 27 of 58 (46.5%) had mastered this concept.</p> <p>I am not at all satisfied with the results. My expectations with regard to question 3 would be that a minimum of 90% of students would be able to understand this concept. It is quite basic.</p> <p>With regard to question 4, I tend to believe that difficulty arose due to lack of arithmetic skills. The calculation involves an understanding of three basic mathematical steps and utilizing the concept that 3500 Kcals are the equivalent of 1 pound.</p> <p>2. If this is an initial assessment, what are some suggestions for improving learning in the course the next time it's taught? What advice would you offer to the next faculty member(s) who teaches the course, based on data and experience teaching the course?</p> <p>I tend to cover both the energy balance equation and set point theory in one lecture period. Students are also assisted through 3 or 4 sample problems (guided through the 3 step process of determining weekly weight change) during this class section.</p> <p>In future semesters, I would recommend the addition of a homework assignment that is related to "running the math" for question 4. The homework could then be discussed and reviewed in a subsequent class period. An additional idea would be that of posting sample results and the</p>

SLO Assessment Results

(01/20/2017)

Assessment Unit : 1

Performance - College students today come from large, diverse backgrounds, therefore, it is very important to instill in the minds of the students that we are all unique individuals. During the karate training, students begin their training by doing mediation which frees the mind of outside interferences and prepares them to focus solely on what is being taught. The students are taught to bow properly to show respect to each other and especially to their instructor or any higher ranking instructor who may enter the room. Students are expected to follow instructions that are given and not to challenge the reason during class instruction time. They are allowed to email the instructor or speak with him at the conclusion of class time if there are any concerns or questions. This allows others to continue to learn without disruptions. Students are not forced to participate in the mediation if they feel uncomfortable, but because the mediation does not constitute any particular religious beliefs and is considered a general cleansing of the mind in preparation for vigorous training, students quickly choose to participate. Respect and discipline are of utmost importance in the training of martial arts today as it was many centuries

During the final month of the semester, students will demonstrate their knowledge of the warm-up exercises while leading the rest of the class.</p> <p>Benchmark: 70% of the students assessed will demonstrate competency in the warm-up exercises taught and explain their function as it relates to exercise.</p> <p>Performance - Most people learn best when shown how to do the task. Karate, being an activity class, has many techniques which can be challenging unless shown exactly how to complete the task. The same is true of the warm-ups. These must be done correctly to prevent the possibility of injuries during the course of training. Students need to physically prepare their body for the demands of a strenuous workout by gradually increasing the body temperature. This helps the ligaments and tendons become more flexible, reducing the chance of tears. An adequate warm-up and mental preparation also increase the students' chances of enduring and benefiting from the hardest part of</p>

given at the end of semester to see if a higher percentage of students gained a higher level of experience for each of the five items.

SLO 4 - Interpret information for understanding Western and yogic nutritional concepts.

SLO Status: Active

Approval Date: 09/19/2013

SLO 5 - Apply safety precautions and correct body alignment while demonstrating beginning level hatha yoga postures.

SLO Status: Active

Approval Date: 09/19/2013

Performance - Transitioning into and out of poses, alignment (feet, arms, front/back, sides), and ability to hold pose for three-five breaths were used as to determine application of safe and proper practice.

At the end of the semester, students also assessed their level of knowledge in body alignment, proper stretching and importance of correct breathing.

Semester Assessed: 2015-16 (Fall 2015)

Benchmark Met: Yes

Visual assessment beginning of the semester: Less than 20% had body awareness even in the most basic pose (standing in Mountain pose) pertaining to alignment, weight distribution, symmetry .

Visual assessment at the end of the semester: 85% of students significantly improved in how they executed the poses and their ability to hold the poses properly and safely. Students were also better able to transition from one pose into another by increased awareness of their body and ability to apply proper breathing techniques. Students also used modifications and props to properly perform the pose while maintaining safety and avoiding injury.

64% of students claimed to have gained knowledge on proper execution of poses and using breathing techniques as a tool in maintaining awareness and comfort in the poses.

Discrepancy in the students' self-assessment and my visual assessment may be due to students doubting that they are "doing it right." (01/05/2016)

<p>SLO 1 - Apply safety procedures and proper techniques for stretching, warm-up and cool down. SLO Status: Active Approval Date: 12/15/2015</p>			
<p>SLO 2 - Identify and describe the health and physiological benefits resulting from participation in a regular walking program. SLO Status: Active Approval Date: 12/15/2015</p>	<p>Performance - Student assessment consisted of administering pre/post timed miles. Benchmark: 85% Participating Faculty : A number of factors may affect a student's ability to improve upon their pre-test timed mile. Some factors include: pregnancy, chronic health conditions, and level of fitness when beginning the semester.</p>		
<p>SLO 3 - Set personal fitness goals to improve levels of cardiorespiratory endurance through walking. SLO Status: Active Approval Date: 12/15/2015</p>	<p>Performance - With regard to this SLO, I measured improvement goals through student performance of a pre & post timed mile. The pre-test was completed during the second and third class session (two timed mile trials were performed). The post-test was administer during 2 of the three last class periods. Students were given two trials for the post-assessment. Best times were recorded for each, the pre & post-assessment. Benchmark: 80% of students will have improved upon their pre-test times, thus demonstrating improved cardiorespiratory fitness and the successful attainment of personal goals. Participating Faculty : In some cases,</p>	<p>Semester Assessed: 2015-16 (Fall 2015) Benchmark Met: Yes 24 of 28 students competed both the pre & post assessments. All 24 or 100% demonstrated improved mile times and met personal fitness goals. (02/16/2016) Assessment Unit : Kinesiology Related Documents: Norco College Course Assessment Report - KIN A-75.docx</p>	<p>Changes Made: Changes were made based upon previous assessments in 2014. I once again introduced the topic of "Training Heart Rate" and the monitoring of heart rates during work-outs during the initial four weeks of the semester. During previous semesters, I had placed a greater emphasis on measuring perceived exertion to monitor the intensity of exercise sessions. Both methods are considered to be adequate for encouraging improvements, yet I am discovering that the early introduction to training heart rates may prove to encourage improved effort. Students are required to record their training</p>

<i>SLOs</i>	<i>Assessment Methods</i>	<i>Results</i>	<i>Changes Made</i>
	students may not be physically able to improve due to health conditions, disabilities, pregnancy, etc.		heart rate for each day of activity, thus increasing accountability. (02/16/2016) COR/SLO modification recommended: No Follow-Up: No follow-up is recommended for this particular method of assessment (02/16/2016)

KIN-A75B:Walking for Fitness: Intermediate

SLOs	Assessment Methods	Results	Changes Made
<p>SLO 1 - Understand and describe various walking regimens and their benefits to health, fitness, nutrition and wellness. SLO Status: Active Approval Date: 12/15/2015</p>			
<p>SLO 2 - Set personal fitness goals to enhance exercise adherence and to improve levels of cardiorespiratory endurance. SLO Status: Active Approval Date: 12/15/2015</p>			
<p>SLO 3 - Compare and contrast energy cost of traditional exercise walking, hill walking and Nordic walking. SLO Status: Active Approval Date: 12/15/2015</p>	<p>Exam/Quiz - Pre-Post Test - The Pre-Post Test will primarily address concepts related to energy cost (caloric expenditure), caloric intake, and the energy balance equation. The method will involve short answer questions.</p> <p>Benchmark: 80%</p>	<p>Semester Assessed: 2015-16 (Spring 2016) Benchmark Met: Yes KIN A75B – Walking for Fitness: Intermediate Assessment – Spring 2016</p> <p>The following SLO was assessed: SLO 3 Compare and contrast energy cost of traditional exercise walking, hill walking and Nordic walking. (Active)</p> <p>Assessment Method Exam/Quiz - Pre-Post Test The Pre-Post Test primarily addressed concepts related to energy cost (caloric expenditure), caloric intake, and the energy balance equation. The method will involve short answer questions.</p> <p>In order to more thoroughly address this particular SLO, test questions were designed to assess student understanding of:</p> <ol style="list-style-type: none"> 1. The energy balance equation 2. The dynamics of weight change 3. The impact of muscle involvement on caloric expenditure. <p>The following questions were utilized:</p> <ol style="list-style-type: none"> 1. How many calories are equal to one pound? 	

SLOs	Assessment Methods	Results	Changes Made
------	--------------------	---------	--------------

2. If caloric intake consistently exceeds caloric expenditure, how will one's body weight change?
3. If Ralph's body composition is 23%, this means that 23% of Ralph's _____ is considered fat mass.
4. If Beverly consistently eats 500 calories above her calorie target, how much weight will she gain on a weekly basis?
5. If Ryan consistently eats 250 calories below his calorie target, how much weight will he lose on a weekly basis?
6. The best approach to weight loss is a combined approach of increasing _____ and decreasing _____.
7. In general, approximately how many calories are expended in one mile of brisk walking?
8. Nordic Walking can increase calorie expenditure by up to _____ percent.
9. Why does the use of arm movement and Nordic Walking increase caloric expenditure?

_____ percent.
 However, all students were able to correctly respond to question #9:
 9. Why does the use of arm movement and Nordic Walking increase caloric expenditure?
 Correct responses to question #9 indicate acquisition of the deeper understanding of muscle involvement and caloric expenditure. Therefore, I do not feel concerned with regard to question #8.
 All students scored at 70% or above and 26 of 27 students (96%) met the established benchmark. Fourteen students (54%) scored 100% on the post assessment.
 Further Comments:
 Concepts related to the energy balance equation are sometimes difficult for students to grasp. Based on my experience teaching this concept, I believe that the challenge is related to some degree of deficiency in math skills. In an effort to work with a known challenge, my strategies included:
 1. Lecture
 2. Hand-outs
 3. Completion and discussion of “practice problems”
 I also made a point of reviewing key aspects of this SLO intermittently throughout the semester.

Document	Discipline	Report Year/Cycle	Request Type	Resource Request	Request Justification	Total Cost of Request	Requested By	Linked to FMP	Request Status	Item Type	Path
Science & Knowledge	Knowledge	2016-2017 Program Review	Equipment	Annual Operating Budget inventories that are necessary for classroom instruction to be available to students.	The discipline of knowledge is unique in that annual purchases are necessary for classroom instruction. Without replacement of equipment on a yearly basis, some instruction will not take place, while other aspects of instruction are severely diminished. Most activity classes and some lecture courses need yearly replacement of equipment. As annual operating budget requests improve our ability to replace our equipment in a timely fashion, it might allow alternate purchasing models (leasing) for our classroom and other instructional supplies. Addressing these equipment requests is a high priority for the College. The request is for the following items: Instructional Supplies - Physical Science Equipment - Science Center Equipment Maintenance	\$ 2,000.00	Beverly Wittmer@staff.usf.edu	Approved	Item	View/FMP/Production/Items/Production Resource Requests	
Science & Knowledge	Knowledge	2016-2017 Program Review	Staff/Faculty	Full-Time Contract/Freelance	Adequate cleanup and cleaning is important for our discipline facilities in order to reduce the likelihood of injury and the amount needed to clean facilities. Because instruction facilities include locker rooms and restrooms in the science field, locker rooms and restrooms in WEEL2 at the science center at WEEL2, and the Science Center at WEEL2. Not only do the facilities need to be cleaned daily, the equipment that is used in these facilities must also be cleaned. This includes restrooms, locker rooms, locker lockers, lockers, and restrooms. It is important that student interest in their use by providing personal facilities and equipment at a daily. The daily request for these equipment is a high priority for the College. The request is for the following items: Instructional Supplies - Physical Science Equipment - Science Center Equipment Maintenance	\$ 42,500.00	Beverly Wittmer@staff.usf.edu	Approved	Item	View/FMP/Production/Items/Production Resource Requests

Science & Knowledge	Knowledge	2016-2017 Program Review	Equipment	Fitness Center - Equipment Maintenance	In anticipation of purchasing new fitness equipment for the next year, we need to ensure that we have the necessary equipment in place to support the current year. Our fitness center will be in good shape for new equipment/updates that would dramatically improve the student experience.	\$ 1,800.00	Beverly Wittmer@staff.usf.edu	Approved	Item	View/FMP/Production/Items/Production Resource Requests	

Program Review Metrics

Program Review - Instructional: Kinesiology

Retention - Retention Metric

Program Review - Instructional: Kinesiology

<i>Observations & Analysis: Discuss any Changes or Significant Trends in the Data</i>	<i>Planned Actions</i>
<p>Reporting Year: 2017 - 2018</p> <p>Observed Trend: No Noticeable Trend</p> <p>Observations & Analysis: Discuss any Changes or Significant Trends in the Data: The previous five year data show no significant changes or trends. The greatest variance has been .6 %. Retention has remained high at between 91.6 - 92.2%</p> <p>Entered By: Beverly Wimer</p> <p>Date of Observations & Analysis: 03/03/2018</p> <p>Related Documents: Retention Data</p>	<p>Planned Actions: Planned actions include the continuance of strong practices in the areas of pedagogy and student engagement. (03/03/2018)</p>

Success - Student Success Metric

Program Review - Instructional: Kinesiology

<i>Observations & Analysis: Discuss any Changes or Significant Trends in the Data</i>	<i>Planned Actions</i>
<p>Reporting Year: 2017 - 2018</p> <p>Observed Trend: Noticeable Trend Up for Some Group(s)</p> <p>Observations & Analysis: Discuss any Changes or Significant Trends in the Data: The previous five year data shows a somewhat noticeable trend upward with the calendar years 2015-2016 and 2016-2017 demonstrating our highest success rates at just over 85%. This success rate is just over 3% higher than the 2012-2013 level. In general, KIN courses are producing success rates that are approximately 15% over the college average.</p> <p>Entered By: Beverly Wimer</p> <p>Date of Observations & Analysis: 03/03/2018</p> <p>Related Documents: Success Data</p>	<p>Planned Actions: The higher success rates could indicate that our pedagogy and student engagement is working well. We plan to continue to pursue excellence in instruction, rigorous standards, and optimal student engagement. (03/03/2018)</p>

Efficiency - Efficiency Metric

Program Review - Instructional: Kinesiology

<i>Observations & Analysis: Discuss any Changes or Significant Trends in the Data</i>	<i>Planned Actions</i>
<p>Reporting Year: 2017 - 2018</p> <p>Observed Trend: Noticeable Trend Down for Some Group(s)</p> <p>Observations & Analysis: Discuss any Changes or Significant Trends in the Data: As KIN section offerings increased from 22 to 26, we are seeing a downward trend in overall efficiency. This trend began Fall of 2015 with the offering of additional sections. However, KIN efficiency is still higher than the college average with a five year value at 648. The 2016-2017 calendar year showed efficiency holding more so steady which could indicate a leveling out of this trend. We interpret this data in a positive way as sections have increased and class sizes have become more pedagogically sound.</p> <p>Entered By: Beverly Wimer</p> <p>Date of Observations & Analysis: 03/03/2018</p>	<p>Planned Actions: Continue to evaluate efficiency data in making decisions regarding the addition of sections. When scheduling, give ample consideration to fill rates and courses with high student demand. (03/03/2018)</p>

Graduates and Certificates - Graduates and Certificates Metric

Program Review - Instructional: Kinesiology

<i>Observations & Analysis: Discuss any Changes or Significant Trends in the Data</i>	<i>Planned Actions</i>
<p>Reporting Year: 2014 - 2017 Observed Trend: No Noticeable Trend Observations & Analysis: Discuss any Changes or Significant Trends in the Data: The Kinesiology Discipline does not offer programs of study and is awaiting state approval for the ADT. The programs of study listed are offered at Riverside College. Entered By: Beverly Wimer Date of Observations & Analysis: 03/28/2018</p>

Program Review - Instructional: Kinesiology

<i>General Observations and Notes</i>	<i>Planned Actions</i>
<p>Reporting Year: 2018 - 2021</p> <p>Are all your courses up-to-date?: Yes</p> <p>General Observations and Notes: All courses are up to date, with several still in review.</p> <p>Entered By: Beverly Wimer</p> <p>Date of Observations & Analysis: 03/21/2018</p> <p>If all your courses are not up-to-date, where are they in the process?: Several of our courses that were updated during the Spring 2017 semester are in the process of review on Curricunet.</p> <p>Is your discipline equally participating in curriculum development across the district?: No</p> <p>If no, please explain.: Over the last 11 years, we have had two full-time faculty. One of our full-timers primarily teaches Health Science classes. Therefore, with a more limited faculty, it has been difficult to create more courses. We are also severely limited by a lack of facility and classroom space.</p> <p>Related Documents:</p> <p>Curriculum - Part 1</p> <p>Curriculum - Part 2</p> <p>Curriculum - Part 3</p>	<p>Planned Actions: As of Fall 2017, we now have a new full-time faculty member who is teaching a portion of her load in Kinesiology. She has agreed to lead the way with developing new curriculum and adopting some classes that are currently offered at Riverside. In Spring 2018, she has received departmental approval to add two new activity courses to our college catalog. (03/21/2018)</p>
