Annual Administrative Program Review Update
Instructions

The Annual Administrative Program Review is conducted by each unit and consists of an analysis of changes within the unit as well as significant new resource needs for staff, resources, facilities, and equipment. It should be **submitted** *or* **renewed every year** in anticipation of budget planning for the fiscal year, which begins July 1 of the *following* calendar year.

The questions on the subsequent pages are intended to assist you in planning for your unit.

The forms that follow are separated into pages for ease of distribution to relevant subcommittees. **Please keep the pages separated** if possible (though part of the same electronic file), **with the headers as they appear**, and be sure to include your unit, contact person (this may change from topic to topic) and date on each page submitted. Don't let formatting concerns slow you down. If you have difficulty with formatting, Nicole C. Brown can adjust the document for you. Simply add responses to those questions that apply and forward the document to nicole.ramirez@norcocollege.edu with a request to format it appropriately.

If you cannot identify in which category your requests belong or if you have complex-funding requests please schedule an appointment with your college's Vice President for Business Services right away. They will assist you with estimating the cost of your requests. It is vital to include cost estimates in your request forms. Each college uses its own prioritization system. Inquiries regarding that process should be directed to your Vice President.

The college has adopted a Total Cost of Ownership calculator for the use of determining cost of faculty, personnel and other needs related to a department or program. The calculator is located under the Office of the Vice President, Business Services, as "Total Cost of Ownership (TCO) Spreadsheet" at the following link: http://www.norcocollege.edu/about/business-services/Pages/index.aspx

Assessment

Why Administrative Units Conduct Assessments: Research indicates that collecting and analyzing evidence leads to improvement of institutional or unit level effectiveness. In addition it:

- Ensures units are examining their services and programs
- Documents outcomes assessment and internal improvement efforts
- Allows each unit to demonstrate how well it is performing
- Allows for requesting resources
- Relies on fact, not perception
- Allows unit staff to prioritize improvements.

Steps to Developing Assessment Plans & Reports

1. **Unit develops measurable Service Area Outcomes (SAO).** An SAO is a "specific statement that describes the benefit that a [unit] hopes to achieve or the impact [. . .] that is a result of the work that your unit performs. Outcomes should be:
   - Challenging but attainable"
   - Articulate what the unit wants to achieve
   - Indicate end results for the unit rather than actions
   - Relate to the unit's mission and vision
   - Focus on the benefit to the recipient of the service
   - Be stable over a number of years. If it is time dependent, it is most likely a goal not an outcome; and
   - Be measurable and directly related to the work of your unit.[7]

   Stems for writing outcomes can include:
   - "In support of student learning, staff will _____"
   - "Students are aware of _____"
   - "Administrators (or staff) have the _____"

REVISED JUNE 2016

2. **Unit defines how it will assess progress (non-evaluative) towards the outcomes.** The unit might consider taking an inventory of current tools being used. For example:
   - What information is being collected already?
   - What assessment are you already using?

   Methods that can be used to measure progress include, for example:
   - Student satisfaction surveys
   - Number and type of complaints
   - Growth in a specific function
   - Comparisons to professional organizations' best practices
   - Focus groups
   - Opinion surveys
   - Time to complete a task

3. **Unit completes the assessment plan and carries out the assessment**. In order to ensure the plan is completed:
   - Designate a coordinator for the assessment project and/or assign responsibility for individual components.
   - Develop a timeline indicating when work will be collected, results tabulated, analysis completed, and subsequent dialogues.

   Unit gathers information, analyzes results, communicates findings, and takes action. This step is important as it is used to identify changes needed to improve efficiency, effectiveness, and unit performance. It should also be applied to for planning and budgeting and resource allocation requests (short term and long term). Ultimately it may be tied to the institution's ability to achieve its mission.
