Annual Instructional Program Review Update

Instructions

***Please retain this information for your discipline's/department's use (or forward to your chair).**

The Annual Self-Study is conducted by each unit on each college and consists of an analysis of changes within the unit as well as significant new resource needs for staff, resources, facilities, and equipment. It should be **submitted by April 20** or the first working day following the 20th in anticipation of budget planning for the fiscal year, which begins July 1 of the *following* calendar year.

For Program Review data, please go to the following link:

<http://www.norcocollege.edu/about/president/strategic-planning/programreview/Pages/index.aspx>

The questions on the subsequent pages are intended to assist you in planning for your unit.

The forms that follow are separated into pages for ease of distribution to relevant subcommittees. **Please keep the pages separated** if possible (though part of the same electronic file), **with the headers as they appear**, and be sure to include your unit, contact person (this may change from topic to topic) and date on each page submitted. Don't let formatting concerns slow you down. If you have difficulty with formatting, Nicole C. Ramirez can adjust the document for you. Simply add responses to those questions that apply and forward the document to nicole.ramirez@norcocollege.edu with a request to format it appropriately.

If you cannot identify in which category your requests belong or if you have complex-funding requests please schedule an appointment with your college's Vice President for Business Services right away. They will assist you with estimating the cost of your requests. For simple requests such as the cost of a staff member, please e-mail your Vice President. It is vital to include cost estimates in your request forms. Each college uses its own prioritization system. Inquiries regarding that process should be directed to your Vice President.

Mission

Norco College serves our students, our community, and its workforce by providing educational opportunities, celebrating diversity, and promoting collaboration. We encourage an inclusive, innovative approach to learning and the creative application of emerging technologies. We provide foundational skills and pathways to transfer, career and technical education, certificates and degrees.

Vision

Norco – creating opportunities to transform our students and community for the dynamic challenges of tomorrow.

Strategic Plan: Goals and Objectives 2013-2018

Goal 1: Increase Student Achievement and Success

Objectives:

1. Improve transfer preparedness (completes 60 transferable units with a 2.0 GPA or higher).
2. Improve transfer rate by 10% over 5 years.
3. Increase the percentage of basic skills students who complete the basic skills pipeline by supporting the development of alternatives to traditional basic skills curriculum.
4. Improve persistence rates by 5% over 5 years (fall-spring; fall-fall).
5. Increase completion rate of degrees and certificates over 6 years.
6. Increase success and retention rates.
7. Increase percentage of students who complete 15 units, 30 units, 60 units.
8. Increase the percentage of students who begin addressing basic skills needs in their first year.
9. Decrease the success gap of students in online courses as compared to face-to-face instruction.
10. Increase course completion, certificate and degree completion, and transfer rates of underrepresented students.

Goal 2: Improve the Quality of Student Life

Objectives:

1. Increase student engagement (faculty and student interaction, active learning, student effort, support for learners).
2. Increase frequency of student participation in co-curricular activities.
3. Increase student satisfaction and importance ratings for student support services.
4. Increase the percentage of students who consider the college environment to be inclusive.
5. Decrease the percentage of students who experience unfair treatment based on diversity-related characteristics.
6. Increase current students' awareness about college resources dedicated to student success.

Goal 3: Increase Student Access

Objectives:

1. Increase percentage of students who declare an educational goal.
2. Increase percentage of new students who develop an educational plan.
3. Increase percentage of continuing students who develop an educational plan.
4. Ensure the distribution of our student population is reflective of the communities we serve.
5. Reduce scheduling conflicts that negatively impact student completion of degrees and programs.

Goal 4: Create Effective Community Partnerships

Objectives:

1. Increase the number of students who participate in summer bridge programs or boot camps.
2. Increase the number of industry partners who participate in industry advisory council activities.
3. Increase the number of dollars available through scholarships for Norco College students.
4. Increase institutional awareness of partnerships, internships, and job opportunities established with business and industry.
5. Continue the success of Kennedy Partnership (percent of students 2.5 GPA+, number of students in co-curricular activities, number of students who are able to access courses; number of college units taken).
6. Increase community partnerships.
7. Increase institutional awareness of community partnerships.
8. Increase external funding sources which support college programs and initiatives.

Goal 5: Strengthen Student Learning

Objectives:

1. 100% of units (disciplines, Student Support Service areas, administrative units) will conduct systematic program reviews.
2. Increase the percentage of student learning and service area outcomes assessments that utilize authentic methods.
3. Increase the percentage of programs that conduct program level outcomes assessment that closes the loop.
4. Increase assessment of student learning in online courses to ensure that it is consistent with student learning in face-to-face courses.
5. Increase the number of faculty development workshops focusing on pedagogy each academic year.

Goal 6: Demonstrate Effective Planning Processes

Objectives:

1. Increase the use of data to enhance effective enrollment management strategies.
2. Systematically assess the effectiveness of strategic planning committees and councils.
3. Ensure that resource allocation is tied to planning.
4. Institutionalize the current Technology Plan.
5. Revise the Facilities Master Plan.

Goal 7: Strengthen Our Commitment To Our Employees

Objectives:

1. Provide professional development activities for all employees.
2. Increase the percentage of employees who consider the college environment to be inclusive.
3. Decrease the percentage of employees who experience unfair treatment based on diversity-related characteristics.
4. Increase participation in events and celebrations related to inclusiveness.
5. Implement programs that support the safety, health, and wellness of our college community.

I. Norco College Annual Instructional Program Review Update

Unit: **PSYCHOLOGY**
Contact Person: **LAURA ADAMS**
Date: **04/12/2016**

Trends and Relevant Data

1. How does your unit support the [mission of the College](#)?

The psychology program and its associated ADT support the mission of the college directly by providing educational opportunities and pathways to transfer for Norco College students. Psychology offers many courses that serve as general survey courses, fulfilling either social science or non-lab natural science requirements for the IGETC and CSUGE curricular patterns. The psychology program also provides an associate's degree for transfer (ADT) within psychology, which creates additional transfer pathways for many students. This ADT is currently the fastest growing at Norco College. Finally, psychology courses are required or included as electives for many other degrees and programs offered at the college.

2. Have there been any changes in the status of your unit? (if not, please indicate with an "N/A")

- a. Has your unit shifted departments? **N/A**
- b. Have any new certificates or complete programs been created by your unit? **N/A**
- c. Have activities in other units impacted your unit? For example, a new Multi Media Grant could cause greater demand for Art courses.
N/A

3. List and discuss your retention and success rates as well as your efficiency. Please be aware that the data have been disaggregated for your analysis. Please list online, hybrid and face-to-face-data separately.

What are the changes or significant trends in the data, including differences among gender, age and ethnicity? To what do you attribute these changes?

OVERALL PATTERNS

Success and retention rates for Psychology classes closely mirror the general patterns and trends seen at the college level, with few discrepancies, noted below.

GENDER: Success and retention across the college as a whole do not differ widely for male and female students. However, there is a slightly larger gap in the success rates for female (69.2%) versus male students (64.9%) in psychology classes. This gap is not seen for retention rates.

AGE: For the most part, Psychology is closely aligned with the success and retention rates reported by the college for these age divisions. Some older age groups (25+) appear to do slightly better or worse than other age ranges. However, it is unclear how meaningful these differences are because these groups have much smaller membership than the 25-24 and 19 or less categories.

ETHNICITY: Mirroring the general trend at Norco, Psychology demonstrates less success with students who identify as Black or African American. However, Psychology shows success rates that are lower than those seen at the college as a whole (55% vs. 62%). At this point in time, it is unclear why this pattern has emerged. More reflection is necessary to understand the trend. It is hoped that the new disaggregated data will spark conversation and analysis across the college that will lead to a deeper understanding of this issue.

FACE-TO-FACE PATTERNS

The vast majority of Psychology classes are offered in the face-to-face format, through web-enhanced delivery. As a result, the face-to-face format is driving the trends and patterns seen at the overall level and there are very few points of discrepancy between this chart and the one discussed on the previous page. The main exception is in regards to gender. The success gap for males versus females is not as prevalent in the face-to-face delivery format.

HYBRID PATTERNS

The Psychology program offers 2-3 hybrid courses per traditional semester (Fall, Spring). Hybrid sections are typically offered for PSY-1 or PSY-9, classes which are typically taken in fulfillment of social science general education requirements. In line with the college as a whole, these hybrid classes show lower success and retention rates than face-to-face offerings. In addition, the same general pattern of decreased success with students who identify as Black or African American is seen. In the 2015-2016 academic year, hybrid course offerings in PSY-1 were enhanced to include online adaptive quizzing and more interactive components in the online portions of the class. It is hoped that these features have had beneficial effects on success and retention, patterns that will be explored in next year's annual program review document.

ONLINE PATTERNS

The psychology program typically offers only one online section of PSY-1: General Psychology per semester. As a result, the disaggregated numbers reported in this table are very small and any differences seen are unlikely to be statistically meaningful. Once again, the general patterns and trends closely reflect those seen at the college level.

Psychology has maintained very high efficiency scores overall, consistently scoring higher efficiency ratings than the institution as a whole. Although these high efficiency rates are admirable, they may represent a need for additional sections in some courses, a situation that should be closely monitored going forward.

4. List the resources that you received in the last year as a result of program review. How did the resources impact student learning? If you requested resources and did not receive them, how did it impact your unit?

The last program review that was completed was the 2015 Comprehensive Program Review. At that time, the main resource request was for a new full-time psychology instructor, along with the necessary equipment for a new hire. At this point in time, the hiring process is under way for that position. If the search is successful, the full impact of the new hire won't be known for a year or two, but it is anticipated that the additional full-time position will improve course offerings, provide a more consistent experience for students, and allow the psychology program to grow. I look forward to reporting on those changes in future program review documents.

5. What annual goals does your unit have for 2016-2017 (please list the most important first)? Please indicate if a goal is directly linked to goals in your comprehensive. How do your goals support the college mission and the goals of the [Strategic Plan/Educational Master Plan](#)?

<p>1. Full-time personal counselor / therapist for Health Services</p> <p><u>Justification:</u> As a community college, Norco College serves an at-risk population. Many of our students are dealing with significant life stressors, including poverty, homelessness, acculturation, learning disabilities, psychological disorders, trauma, combat experiences, relationship issues and many other situations. These burdens are, of course, experienced on top of the typical stress experienced by college students. In order to serve these students and help them learn, Norco College needs an active Psychological Services Center on campus. Many campuses that are smaller than Norco employ multiple personal counselors. Students referred to Health Services for counseling often report having a hard time getting an appointment. Hiring a full-time personal counselor/therapist to spear head this effort would be a good first step.</p>	<p>Goal 1: Increase student achievement and success.</p> <p>6. II. Norco College - Annual Assessment Update

USE ASSESSMENT DATA FROM fall 2014-spr 15

Purpose –An annual review provides an opportunity for reflection on all that has been accomplished and learned from your efforts in assessment. The annual review is a time to take stock of which courses and programs have undergone some scrutiny, and subsequently should help with planning for the upcoming years. Things we might learn in one cycle of assessment might actually help us to plan assessments in the next cycle, or might facilitate changes in other courses that weren't even included in the initial assessment. To this end, please complete the following with as much detail as possible. If you have any questions, please contact either Sarah Burnett at sarah.burnett@norcollege.edu, or Greg Aycock at greg.aycock@norcollege.edu, or talk to your NAC representative.

1. Identify where you are in the cycle of SLO assessment for each course you assessed in fall 2014 - spring 2015. Each response will be individualized; this means each completed column might look a little different. You may have a course in which you are implementing improvements to close the loop on an initial assessment that was completed in a different year. You might also have a course that only has an initial assessment and you haven't yet completed any follow-up or improvement activities. (Add rows to the chart as needed.)

Course number	SLO Initial Assessments	Semester assessed	Entered into TracDat fields	SLOs with Changes Made to course	Plan for completing identified Changes	SLOs not needing Changes (assumed loop-closed)	SLOs involved in Loop-Closing assessment

Because this is the first time the course was offered and assessed at Norco, the reliability of the assessment and historical trends for student performance are unknown.	SLO 1 - Rather than proposing specific changes at this point in time, the discipline members plan to track the performance of students on future assessments to identify trends and patterns that will put these results in context. After the next assessment, in the 2016-2017	SLO 2, SLO 3, SLO 4, SLO 5 These four SLO results meet discipline set benchmark of 70% success rate. PSY-50 SLO 1	Change the language of this SLO from “explain” to “demonstrate.”	SLO 1 uses the word “explain” which may be asking for open ended or essay type questions. Use of the word “demonstrate” for this SLO would allow for more accurate quantitative measurement. Other SLOs for this course cover the requirement that students be able to communicate ideas in verbal and written format.

5. Have you shared your assessments, outcomes, improvements etc. with your discipline? How? If not, how do you plan to do so in the future? (For a more complete answer, please include any meeting dates, agenda, and/or minutes, emails between faculty members, conversations captured in college, department, or discipline meetings – include these data as an Appendix at the end of this document)

The results of the PSY-8 and PSY-25 assessments were shared at an SBS Department meeting and at a meeting of NAC in the Fall 2015 semester. More broadly, the results of the assessments were shared and communicated with discipline members through TracDat. However, these efforts are not sufficient. One of the goals for the next academic year, and for the four-year cycle of comprehensive program review, is to enhance communication throughout the psychology discipline at Norco College. In addition, another goal is to work on our assessment rotation. At this point in time, considerable assessment is being performed within the psychology discipline but it is neither coordinated nor comprehensive and communication between full-time and part-time faculty is lacking. This is likely a result of the program not having a full-time faculty member for several years. It is hoped that this situation will begin to improve now that one full-time faculty member has been added and a search for a second is currently underway.

6. Did any of your assessments indicate that your discipline or program would benefit from specific resources in order to support student learning, and/or faculty development? If so, please explain.

Resources State the resources identified to support student learning and/or faculty development	Assessment Name the assessment(s) that indicated resources are needed Identify course, SLO & semester	Reasoning Briefly explain what you learned in the assessment that indicates the resource might be beneficial
None.		

7. What additional support, training, etc. do you need in the coming year regarding assessment?

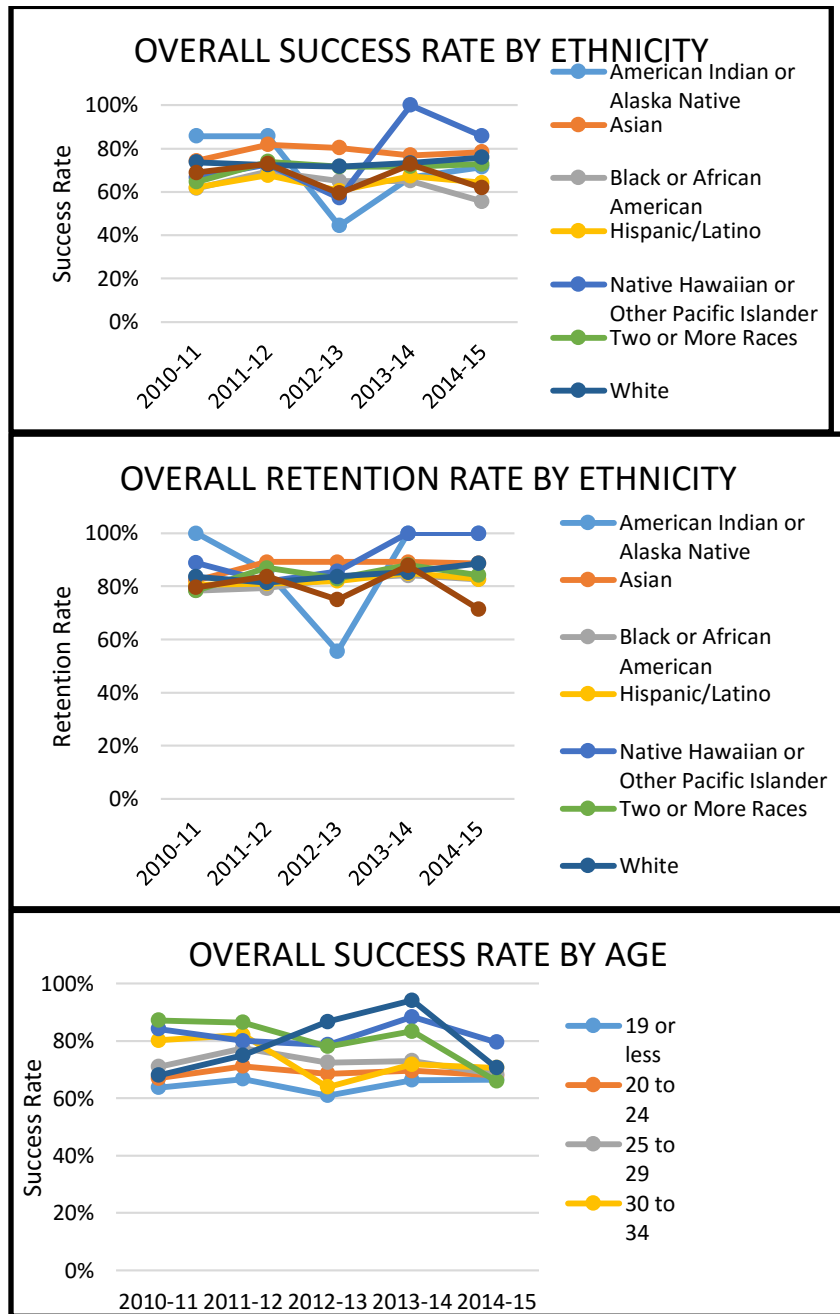

The main challenge facing the psychology program is building a comprehensive and coordinated culture of assessment. It will take time to build this communication and collaboration. It would be helpful to have guidance or training designed to enhance collaboration between full-time and part-time faculty.
