### **After 11-hour meeting, plan to rescind Riverside County coronavirus orders delayed**

- While state restrictions on schools and business would remain regardless of what the Board of Supervisors did, the hearing became a chance to weigh in on amid an ongoing nationwide debate over measures that have shuttered businesses and limited public movement to fight a virus that has killed more than 60,000 nationwide, including 181 in the county going into Tuesday.
- Nearly 11 hours into their meeting, Riverside County supervisors voted unanimously Tuesday evening, May 5, to delay action on a plan to rescind four orders issued by the county's public health officer to deal with the novel coronavirus pandemic.
- Instead, the Board of Supervisors will take up the proposal at a 1 p.m. Friday emergency meeting. By that time, the board hopes to have more clarity on Gov. Gavin Newsom's plan for reopening businesses. He's expected Thursday to provide more details, including sanitation and social distancing requirements for businesses to open their doors.

### **Riverside City Council considers rent freeze, \$1.8M for small businesses amid coronavirus crisis**

- The rent freeze would prohibit many landlords in Riverside from increasing residents' rent for 60 days or until the end of the local emergency caused by COVID-19, whichever is earlier.
- The freeze would apply to properties covered by Assembly Bill 1842, a 2019 law that limits rent increases to no more than 5% plus inflation. It does not cover affordable housing, college dorms, mobile homes and certain other types of housing.

**Forecast Discussion**

Significant warming today. The heat wave will peak Wednesday and Thursday as upper level high pressure builds in and weak offshore flow persists. The hottest days will be near record highs for inland areas. The High Desert will see the peak on Friday and only a slight drop for most inland areas. The warmest days on the coast are Wednesday and Thursday. The lower deserts will likely be 105 to 110F each day, with highs across the Inland Empire, inland Orange County, and the inland valleys of San Diego County in the 90s to 100F. It will remain milder along the immediate coast due to marine air. Temperatures will gradually cool over the weekend, but will continue to be above normal for all inland areas. More significant cooling early next week and wind in deserts.
