Brazil records more than 100,000 new coronavirus cases in the past 5 days alone

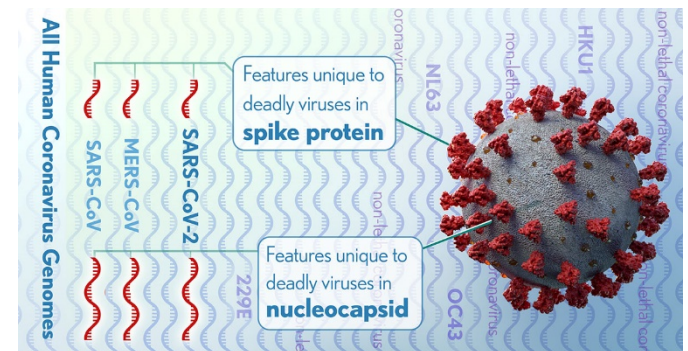

- In the past five days alone, Brazil confirmed more than 100,000 new cases of the novel coronavirus.
- The health ministry reported another 32,000 confirmed coronavirus cases in the past 24 hours, bringing the country's total to at least 772,416.
- The country is also nearing 40,000 deaths from the virus, after recording 1,274 new Covid-19 deaths Wednesday.
- The coronavirus death toll in Brazil stands at 39,680.
- Brazil is Latin America's hardest-hit country by the virus, holding the second-highest number of cases globally behind the US.

White House coronavirus task force will meet today as US cases surpass 2 million

- As the US has passed 2 million confirmed coronavirus cases and a trusted model is projecting a steep increase in the fall, Vice President Mike Pence will lead a White House coronavirus task force meeting today.
- The task force will meet at 2:30 p.m. ET in the Situation Room, according to Pence's schedule. This will be the second meeting this week – the group last met on Tuesday.
- As CNN reported last month, the task force has been sharply curtailed, meeting about once a week. Task force members have been on conference calls with governors weekly, but there has not been a briefing from the task force since April 27.

NIH researchers identify key genomic features that could differentiate SARS-CoV-2 from other coronaviruses that cause less severe disease

- A team of researchers from the National Library of Medicine (NLM), part of the National Institutes of Health, identified genomic features of SARS-CoV-2, the virus that causes COVID-19, and other high-fatality coronaviruses that distinguish them from other members of the coronavirus family.
- "We were able to identify several features that are not found in less virulent coronaviruses and that could be relevant for pathogenicity in humans. The actual demonstration of the relevance of these findings will come from direct experiments that are currently getting under way."

Protests could spur coronavirus outbreaks, and protesters should get tested, the CDC chief says

- That's the recommendation of the director of the CDC said during a House Appropriations hearing on June 5th that anyone who participated should "highly consider" getting tested.
- "I do think there is a potential, unfortunately, for this to be a seeding event," Dr. Robert Redfield said June 5th. He said the risk of infection is higher in major cities where there's been significant transmission. To prevent transmission, Redfield suggested people who attend protests tell their loved ones that they were out in public and get tested within 3 to 7 days.

Face Masks And Latex Gloves Have Become A New Environmental Problem

- The Covid-19 pandemic may have given the planet a temporary, though not long-lasting, breather when it comes to air pollution and greenhouse gas emissions, but it's also given Earth a new environmental scourge: latex gloves on beaches and sewers filled with face masks.
- Although there's no data on the scale of the problem yet, the Associated Press contacted 15 city authorities in the US and all reported they had had significantly more sewer clogs and drainage issues since the pandemic began. This might be related to people flushing PPE or, they say, it could be due to people flushing alternatives to toilet tissue amid the early-lockdown panic buying.

North Carolina auto race draws thousands after dubbing itself a 'protest'

- A North Carolina speedway drew a crowd of more than 2,000 spectators in defiance of the state's coronavirus restrictions after declaring the race a "protest."
- The governor's office had warned Ace Speedway in Elon that a crowd of more than 25 would violate the state's Phase 2 coronavirus restrictions.
- A sign from management outside the speedway said, "This Event is held in Peaceful Protest of Injustice and Inequality Everywhere." The Alamance County Sheriff's Office said it is "evaluating the events."

Officials say no turning back on reopening even as coronavirus cases rise

- California officials remain confident about the rapid reopening of the economy even as coronavirus deaths and new cases continue to rise, saying they have no plans now to slow the efforts.
- They said they expected cases to tick upward as businesses reopened but stressed the overall metrics still support the reopening strategy, which took another major step forward on Wednesday.
- "No, we are completely not out of the woods, we are still in in the middle of the woods and we still have a lot of risk," Public Health Director Barbara Ferrer said. "I know how desperate people are to get be able to get back to events but that is not in our health officer order nor is it in the state health officer order."

- “As we phase in, in a responsible way, a reopening of the economy, we’ve made it abundantly clear that we anticipate an increase in the total number of positive cases,” Gov. Gavin Newsom said Tuesday while speaking with Oakland community leaders.
- “But we’ve also made it abundantly clear the concurrent recognition and commitment that we are in a substantially different place than we were 90 days ago. We have hundreds of millions of masks now in our possession.”

California Schools Chief Details Plan for Reopening

- California’s Department of Education released a detailed guide Monday for the safe reopening of schools in the age of face masks and physical distancing to prevent the spread of the coronavirus
- “The COVID-19 pandemic has had a devastating effect on everything we know about providing education,” said State Superintendent of Public Instruction Tony Thurmond. “It forces us to enter into a new conversation about the way we provide instruction.”
- The manual titled, “Stronger Together: A Guidebook for the Safe Reopening of California’s Public Schools,” can serve as a road map for school districts as they prepare for the return of classes in the fall, Thurmond said.
- The state cannot order schools to adopt its rules, but its guidance serves as recommendations for districts to follow on reopening. School districts opted to close when Gov. Gavin Newsom issued a statewide stay-at-home order in mid-March and developed distance-learning plans on the fly.
- The California Education Coalition, which includes the nine statewide K-12 public education associations, has urged Newsom and state legislators to reject the cuts. Teachers, superintendents, principals and others say they support the need to implement physical distancing at schools, which would require decreased class sizes and dramatically increased cleaning in classrooms and across campuses. But all of that will cost more money.

California's Disneyland eyes July 17 for reopening

- Disneyland is proposing reopening its Southern California resort on July 17, according to a post on the park's official website.
- The three main elements of their Anaheim, California, campus will begin with the reopening of the shopping district in Downtown Disney on July 9, theme parks Disneyland and California Adventure on July 17, and hotels Paradise Pier and Grand Californian on July 23.
- As theme park capacity will be limited, Disneyland will implement a new reservation system along with new health and safety protocols.
- The proposal is subject to the approval of the Orange County Health Department.

COVID-19 Update

Situation: FEMA and HHS continue leading the multiagency COVID-19 Response / Recovery efforts. 37,586 FEMA, DoD, HHS, VA, and CDC personnel deployed / activated; 2,647 (-8) FEMA employees deployed. Nationwide testing: 21,693,633 (+879,364) cumulative as of June 9.

Lifelines Impacts:

Food, Water, Shelter

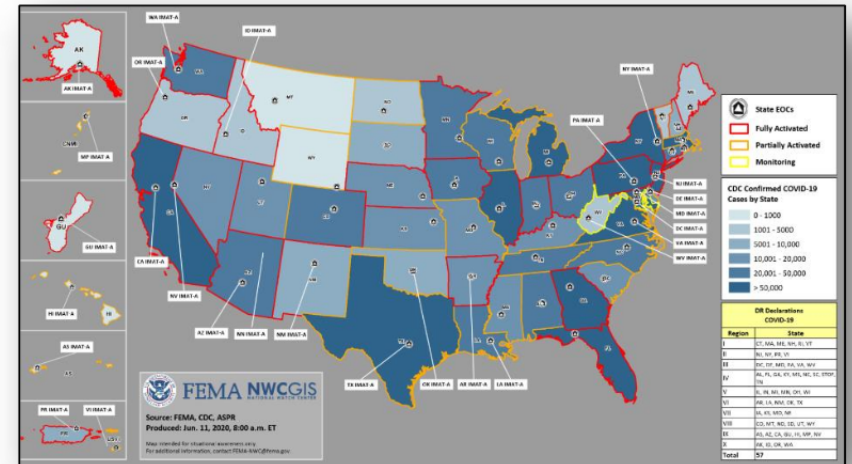

- U.S. meatpacking facilities for beef, pork and poultry are operating at more than 95% of their average capacity compared to the same time last year

Transportation

- NY Metro-North and LIRR transit systems preparing for increased ridership by ensuring railcars are sanitized and requiring use of cloth face coverings and hand sanitizer; Metro-North distributing 500k cloth face coverings, 10k gallons and 10k 2-oz hand sanitizer bottles provided by NY to the public

Response:

- NRCC at Level I; Region I, II, and IV RRCCs at Level II; Region III, V, VI, VIII and X RRCCs at Level III; Region VII and IX RRCCs are rostered, COVID-19 response being worked from the Virtual JFOs in Kansas City, MO and Oakland, CA
- NWC and all RWCs and MOCs at Steady State, continue to monitor

COVID-19	Confirmed	Deaths
United States	1,973,797 (+17,087)	112,133 (+950)
Worldwide	7,039,918 (+108,918)	404,396 (+3,539)

COVID-19 County Variance Attestation

https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/County_Variance_Attestation_Form.aspx

Not Permitted in Stage 2

- Personal services such as nail salons and tattoo parlors
- Community centers, including public pools, playgrounds, and picnic areas
- Concert venues
- Live audience sports
- Festivals
- Theme parks
- Higher Education

Below is the list of business activities/sectors that fall within and outside Stage 2:

Stage 2

Early Stage 2: California is now open with modifications.

- Curb-side retail
- Manufacturers
- Logistics
- Childcare for those outside of the essential workforce
- Office-based businesses (telework remains strongly encouraged)
- Select services: car washes, pet grooming and landscape gardening
- Outdoor museums, open gallery spaces and other public spaces with modifications

Expanded Stage 2 with Attestation: Upcoming changes in the Stay-at-Home Order will move the entire state methodically through opening further. Those counties with variation attestation may progress to open these sectors more rapidly, according to their county-specific plan for modification.

- Destination retail (retail stores), including shopping malls and swap meets
- Dine-in restaurants (other amenities, like bars or gaming areas, are not permitted in Stage 2)
- Schools with modifications
- Limited-capacity religious services and cultural ceremonies
- Day camps (Beginning June 12)
- Campgrounds, RV Parks, and Outdoor Recreation (Beginning June 12)
- Hotels (Beginning June 12)
- Cardrooms, Satellite Wagering Facilities and Racetracks (Beginning June 12)
- Family Entertainment Centers and Movie Theaters (Beginning June 12)
- Restaurants, Bars, and Wineries (Beginning June 12)
- Fitness Facilities (Beginning June 12)
- Museums, Galleries, Zoos, and Aquariums (Beginning June 12)
- Music, TV and film production (Beginning June 12)
- Professional Sports without Live Audiences (Beginning June 12)

7-day Forecast for Counties in far Southwest CA

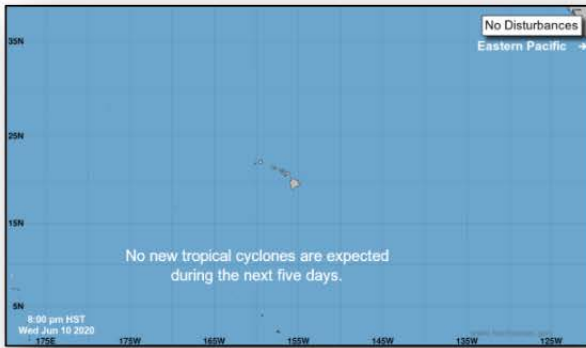

Period June 11 - June 18 (24-hr)	Orange	SW San Bernardino	All Deserts	Western Riverside	San Diego
Thursday	Warm	Very Warm	Very Warm	Very Warm	Warm
Friday	Cooler	Milder	Warm Breezy	Milder	Cooler
Saturday	Mild	Mild	Warm Breezy	Mild	Mild
Sunday	Mild	Mild	Warm	Mild	Mild
Monday	Warmer	Warm	Warm	Warm	Warmer
Tuesday	Warm	Warm	Warm	Warm	Warm
Wednesday	Warm	Warm	Warm	Warm	Warm
Thursday	Mild	Mild	Cooler	Mild	Mild

Forecast Discussion

Greater onshore flow will occur today with a noticeably cooler day for the coast with slight cooling for the valleys. The hottest day of the period will occur for our desert locales, with 105-110 degrees in the lower deserts and mid 90s for the high desert before conditions cool heading into the weekend. Gusty west winds of 30-40 MPH will occur at times over the mountains and deserts Friday-Saturday. A ridge of high pressure will begin to build across the area on Sunday, leading to temperatures slightly above normal into early and middle part of next week.

Latest hazard threat table: <https://www.wrh.noaa.gov/sgx/event/dsstable.php>

Tropical Outlook – Five Day

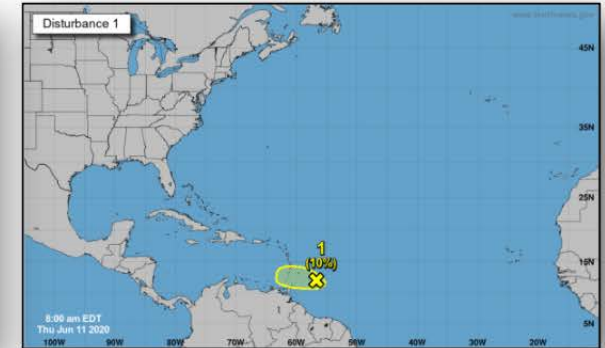

Central Pacific

Eastern Pacific

Disturbance 1 (as of 2:00 a.m. ET)

- Forecast to form S or SSW of southern tip of Baja California Sur
- Tropical depression could form early next week as it moves WNW away from Mexico
- Formation chance through 48 hours: Low (near 0%)
- Formation chance through 5 days: Medium (40%)

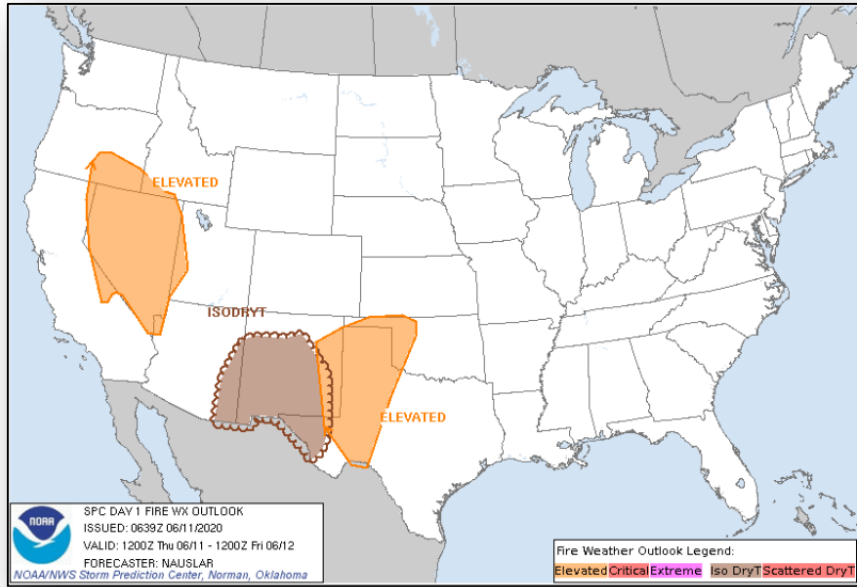

Atlantic

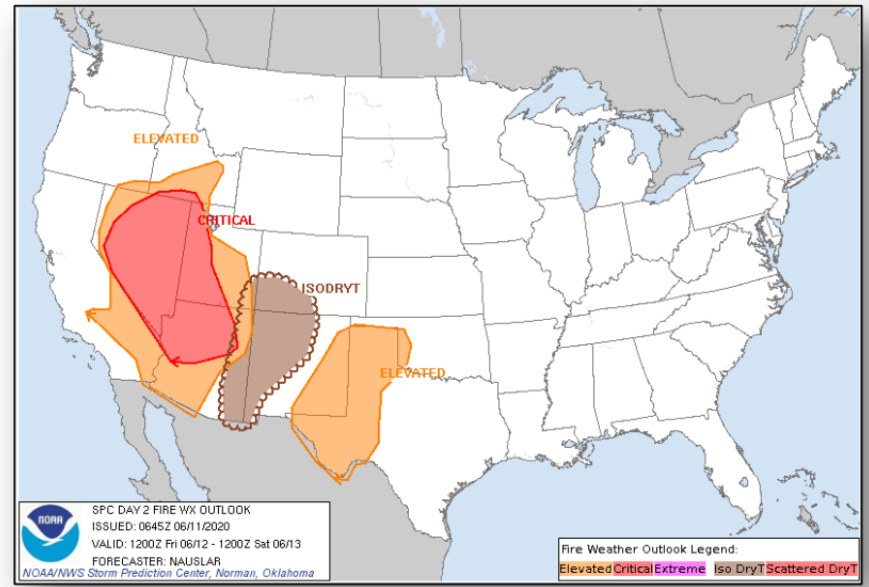

Disturbance 1 (as of 2:00 a.m. ET)

- Located 350 miles E of Windward Islands
- Significant development is not expected while it moves W at 15-20 mph
- Formation chance through 48 hours: Low (10%)
- Formation chance through 5 days: Low (10%)
