## News

### IOC joins forces with WHO and the United Nations to fight COVID-19 #HEALTHYTogether.

- On Olympic Day, 23 June 2020, the International Olympic Committee and WHO together with the United Nations launch a partnership to encourage individuals and communities around the world to be #HEALTHYTogether. The three partners and Olympic athletes will spotlight the global collaboration needed to stay healthy and reduce the spread and impact of COVID-19.
- Olympic athletes will help deliver important public health information, to inspire people to adopt or continue behaviors that will curtail the pandemic and provide information that promotes physical and mental health. The partnership kicks off today with Olympians around the world showcasing various exercises to stay healthy during this time.

<https://www.who.int/campaigns/connecting-the-world-to-combat-coronavirus/healthytogether>

A new team is forming, uniting athletes and experts to save lives from COVID-19. We are united in one goal, to be

 **HEALTHY**Together

### The World Health Organization reminds public to remain vigilant through Mr Bean's Essential COVID-19 Checklist

- The World Health Organization (WHO), Project Everyone and Tiger Aspect Productions have partnered to launch a Public Service Announcement (PSA) using global comedy cartoon star, Mr Bean.
- With cases of COVID-19 continuing to rise globally, "Mr Bean's Essential COVID-19 Checklist" is a reminder to people about the importance of washing hands, physical distancing and demonstrating kindness to their neighbors. The PSA features a cartoon sketch of Mr. Bean comically tackling a pesky roller blind to finally reveal a number of essential tips to protect people against COVID-19.

## Coronavirus sweeps through Afghanistan's security forces

- The novel coronavirus is sweeping through Afghanistan's security forces, according to senior Afghan security officials from four provinces who report suspected infection rates of 60 to 90 percent among their units — reducing the number of forces available to conduct operations or take up duty at outposts.
- The Afghan government refuses to release data on the number of coronavirus cases within the security forces. Spokesmen from the Afghan ministries of defense and the interior acknowledge that there are cases within the security forces but say the virus's spread has been contained because troops displaying symptoms are quickly isolated, masks have been made mandatory and medical supplies have been distributed to bases nationwide.
- Security officials from Nangarhar, Ghazni, Logar and Kunduz provinces — all heavily contested by the Taliban — spoke to The Washington Post about infection rates within their ranks on the condition of anonymity because they were not authorized to talk to the media.

## Coronavirus restrictions threaten democracy, global leaders warn

- More than 500 political and civil society leaders, Nobel laureates and rights groups have warned that some governments are using the coronavirus pandemic to "tighten their grip on power", undermining democracy and civil liberties.
- In an open letter on Thursday, signed by former US Secretary of State Madeleine Albright, actor Richard Gere and Nobel Peace Prize laureates Shirin Ebadi, Lech Walesa and Jose Ramos-Horta among others, the authors said the measures introduced to stem the spread of the virus pose a threat to human and political rights.
- "The current pandemic represents a formidable global challenge to democracy," the letter said.
- Lockdown restrictions have also led to a "horrifying global surge" in domestic violence and threatened human rights, according to the United Nations.
- Nearly 70 pro-democracy institutions also supported it.

## Kentucky Derby will have fans in the stands 'under strict guidelines,' officials say

- The Kentucky Derby will have fans in the stands "under strict guidelines" when it runs on the rescheduled date of Sept. 5, officials said Thursday.
- The annual horse racing spectacle at Churchill Downs had been rescheduled earlier this year from the first Saturday in May to the first Saturday in September due to the coronavirus pandemic.
- Churchill Downs announced Thursday that "after consultation with Gov. Andy Beshear and state public health officials," officials determined the 146th edition of the Run for the Roses will take place with spectators "under strict guidelines."
- The new plan, which was put into place with guidance from Kentucky's "Healthy at Work" plan and the Louisville Metro Department of Public Health and Wellness, will include several rules meant to prevent the spread of COVID-19.

- View the link to see what safety measures include the following

## **U.S. Department of Health & Human Services, National Institutes of Health (NIH) Swimming with the High-Tech Sharks to Improve COVID-19 Testing (Directors Blog)**

- So much has been reported over the past six months about testing for coronavirus disease 2019 (COVID-19) that keeping up with the issue can be a real challenge. To discuss the latest progress on new technologies for SARS-CoV-2 diagnostic testing in the United States, I spoke recently with NIH's Dr. Bruce Tromberg, director of the National Institute of Biomedical Imaging and Bioengineering (NIBIB). Not only does Bruce run a busy NIH institute, he is helping to coordinate the national response for expanded testing during the COVID-19 pandemic.
- Bruce also has a leading role in one of NIH's most-exciting new initiatives. It's called the Rapid Acceleration of Diagnostics (RADx) initiative, and it is on the fast track to bolster the country's diagnostic testing capacity within months. Here's a condensed transcript of our chat, which took place via videoconference, with Bruce linking in from Bethesda, MD and me from my home in Chevy Chase, MD
- Conversation between Collins and Tromberg.  
<https://directorsblog.nih.gov/2020/06/25/swimming-with-the-high-tech-sharks-to-improve-covid-19-testing/>  
<https://www.nih.gov/research-training/medical-research-initiatives/radx>

## **Disneyland Reopening Delayed Indefinitely**

- Disneyland reversed plans Wednesday to reopen July 17, indefinitely delaying the reopening of the theme park.
- In a statement, the company blamed the state for the delay while also implying that ongoing union negotiations are a factor.
- "The State of California has now indicated that it will not issue theme park reopening guidelines until sometime after July 4. Given the time required for us to bring thousands of cast members back to work and restart our business, we have no choice but to delay the reopening of our theme parks and resort hotels until we receive approval from government officials. Once we have a clearer understanding of when guidelines will be released, we expect to be able to communicate a reopening date. "
- According to the company, Disney developed enhanced health and safety protocols for employees and guests at Shanghai Disney Resort, Hong Kong Disneyland Resort and Walt Disney World Resort that passed muster with health officials in those communities.
- The Downtown Disney District will reopen on July 9 as previously announced, despite the delay in reopening the theme park. Guests can expect to see a series of health and safety protocols in place. The Downtown Disney District reopening was approved along with restaurant and retail openings throughout California.

## **Infectious Coronavirus Encounters Now 'Likely' In LA**

- The county is not in immediate danger of hospitals being overwhelmed with coronavirus cases, said the county's health services director, Dr. Christina Ghaly. However, if the virus's spread continues to accelerate, it could threaten the availability of intensive care unit beds, she warned.
- What does concern health officials is the climbing percentage of people testing positive for the virus. The overall percentage of people testing positive over the past seven days has risen to 8.8 percent, up from 8.4 percent on Monday and from 5.8 percent just 11 days ago. The trend would appear to indicate that the virus is spreading in the community. The new cases raised the county's overall total to 88,512. So far 3,172 Angelenos have died from COVID-19.
- Enough people have COVID-19 that the average Angeleno is likely to encounter potentially infectious people on a typical day, officials say.

7-day Forecast for Counties in far Southwest CA					
Period June 25 - July 2 (24-hr)	Orange	SW San Bernardino	All Deserts	Western Riverside	San Diego
Today	None	Warm	Hot	Warm	None
Friday	None	Warm	Hot	Warm	None
Saturday	None	Warm	Hot	Warm	None
Sunday	None	Not as warm	Very Warm Breezy	Not as warm	None
Monday	None	None	Cooler Breezy	None	None
Tuesday	None	None	None	None	None
Wednesday	None	None	None	None	None
Thursday	None	None	None	None	None

**Forecast Discussion**

Little day to day variations in temperature will continue through Saturday, so it stays hot in the deserts. A trough from the north will arrive on Sunday, increasing winds across the deserts and bringing cooler conditions which last through Tuesday. Temperatures will gradually warm mid to late next week, but only to near seasonal averages.
