Sources: CDPH, WHO, CDC

The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. *California-Demographics.com made by Cubit - a demographic data provider & census.gov

Survey

Even if you receive this CoV -19 Daily Situation Summary daily update second or third hand can you please take 2 minutes and fill out a quick survey? My goal is to get feedback about how I can improve the report. The Survey is 8 questions and will take a few minutes.

[CoV-19 Daily Situation Summary Survey](#)

The Survey will close on Friday 9-4-2020

I work hard to provide accurate and timely data that is useful and your feedback is essential to this process

Thank you for your time.
