The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. \*California-Demographics.com made by Cubit - a demographic data provider & census.gov

Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (LA County does not report recovery rates and Imperial County case data reporting is delayed to the state data source)

### **Opera canceled in Spain after spectators protest lack of social distancing**

- Spain's main opera house has come under fire after a show had to be canceled amid loud protests from spectators complaining about the lack of social distancing in upper-circle seats. Videos shared online by several attendees to Sunday's performance of Giuseppe Verdi's "Un ballo in maschera" at the Royal Theatre in Madrid showed some full rows in the highest and cheapest audience platform, while attendance at the pricier floor area had been reduced leaving empty seats.
- The performance was canceled after several rounds of applause and shouting during the performance and despite the theater relocating some spectators and offering to return the value of their tickets, the Royal Theatre said in a statement.
- The theater, which has launched an investigation into the incident, said that attendance had been reduced to 905 seats, or 51.5% of the total, due to the coronavirus pandemic. Current rules in Madrid limit cultural performances to 75% of the audience.

### **Chinese tycoon who criticized Xi Jinping's handling of coronavirus jailed for 18 years**

- A Chinese billionaire who criticized President Xi Jinping's handling of the coronavirus pandemic has been jailed for 18 years on corruption charges, a court said Tuesday.
- Ren Zhiqiang, a retired real-estate tycoon with close ties to senior Chinese officials, disappeared in March after he allegedly penned a scathing essay that month criticizing Xi's response to the coronavirus epidemic. He was later charged with corruption-related offenses.
- On Tuesday, a court in Beijing found Ren guilty on multiple charges, including embezzling some \$16.3 million (110.6 million yuan) in public funds, accepting bribes, and abuse of power that caused losses totaling \$17.2 million (116.7 million yuan) for the state-owned property company that he once headed.
- Judges sentenced him to 18 years in prison and imposed a fine of \$620,000 (4.2 million yuan). The court said he "voluntarily confessed all of his crimes" and "was willing to accept the court's verdict after all of his illegal gains were recovered."

### **Alitalia airline offering 'Covid-tested' flights**

- Alitalia is an airline betting that the answer to that question is "yes."
- The Italian national carrier has announced that it will trial flights between Rome and Milan where every single passenger has to confirm that they have tested negative for the virus. These flights are identified as "Covid-tested."
- There are two ways to do that: by getting tested within 72 hours of flying and bringing a negative certificate to the airport, or by getting a negative result of a rapid antigen test at the airport's Covid testing facility. These flights will have a dedicated security line for extra safety.
- Right now, this testing procedure isn't significantly different from what many airlines are doing around the world. But labeling the flight "Covid-tested" could provide much-appreciated peace of mind to travelers who are antsy about boarding a plane amid a pandemic.  
<https://www.cnn.com/travel/article/alitalia-coronavirus-free-flights/index.html>

# What We Know About Coronavirus Cases in K-12 Schools So Far

- Schools are not islands, and so it was inevitable that when students and teachers returned this fall to classrooms, coronavirus cases would follow them.
- But more than a month after the first school districts welcomed students back for in-person instruction, it is nearly impossible to tally a precise figure of how many cases have been identified in schools.
- There is no federal effort to monitor coronavirus cases in schools, and reporting by school districts is uneven. One independent effort has counted more than 21,000 cases this school year.
- While some districts regularly disclose their active cases, others have cited privacy concerns to withhold information, a move that has frustrated parents, educators and public health experts trying to assess the risk of exposure in schools and the potential impact on the larger community. Eleven states do not publish information on school cases, leaving many of the nation's students and parents in the dark.

These states provide case data at the local level.

## **Cruise line association announces 'mandatory' coronavirus regulations for resuming cruises in the Americas**

- An association of dozens of major cruise lines has announced the voluntary adoption of new health protocols — which would be mandatory for its members — in the hopes of resuming cruise voyages in the Americas “during the remainder of 2020.”
- Among these new “core elements” for health and safety, all cruise passengers will be tested for COVID-19 prior to embarkation, and all guests will be required to wear masks when physical distancing is not possible.
- Cruise Lines International Association (CLIA), which counts Carnival, Royal Caribbean and Norwegian cruise lines as members, announced the new measures, or “mandatory core elements,” in a news release Monday.
- The new protocol will be submitted to the CDC on behalf of CLIA’s member lines and would apply to all oceangoing ships affected by the CDC’s No Sail Order, which advises against resuming cruise operations at least until Sept. 30, when the order expires.

<https://www.foxnews.com/travel/clia-cruise-lines-announces-mandatory-regulations-resuming-cruises-masks-testing>

## **Parents charged over teen party that sparked coronavirus concerns, led entire school to go remote**

- Two Massachusetts parents and their teenage child are facing criminal charges in connection to a party that sparked coronavirus concerns and led the town's entire high school to delay in-person learning.
- The parents and teen in Sudbury, Massachusetts, were charged with violating the state's social host law, the Sudbury police chief, Scott Nix, told NBC News on Tuesday morning. Under the law, “whoever furnishes alcohol” to underage drinkers faces a fine of up to \$2,000, imprisonment for up to a year, or both.
- The adults were charged with the misdemeanor in Framingham District Court and their child in Framingham Juvenile Court, the chief said.

## **California’s COVID-19 positivity rate drops below 3% for the first time**

- The share of Californians who tested positive for COVID-19 in the last week dipped below 3% for the first time, a sign that the Golden State is finally starting to beat back the spread of the coronavirus, officials said Monday.
- Just 3.1% of Californians who were tested over the last two weeks received a positive result, and that ratio dropped to 2.8% in the last seven days, state officials said. Hospitals in California are treating the fewest patients with the virus since April, and admissions to the state’s intensive care units have been dropping steadily, too.
- It’s a rare piece of good news for 40 million Californians, who are contending with raging wildfires and toxic air quality on top of the economic, physical and emotional effects of the coronavirus pandemic.

## Reopening of Orange County schools now delayed to Sept. 22, at the earliest

- Some Orange County schools opened their doors Wednesday for the first time in months, with even more students possibly returning to classrooms following the county's removal from California's COVID-19 watch list.
- O.C. was removed from the list Sunday. The state mandates a county must be off the list for 15 days before all schools can reopen.
- Fairmont Schools were among dozens given permission to reopen.

RELATED

## Orange County Could Move Into Orange Tier Within a Week, Loosen Coronavirus Restrictions Further

- Orange County's COVID-19 numbers are improving enough to move it up a level to the orange tier within a week if trends continue, officials said Monday.
- The overall positivity rate is expected to go from 3.9% to 3.1% and the daily case count per 100,000 people is expected to drop from 4.7% to 3.6%, said Orange County CEO Frank Kim. The percentages could be up or down, but in that neighborhood, Kim said.
- "I would expect we look orange tomorrow and that's week one," Kim said.

# Wildfire / Public Safety Power Shutoff (PSPS)

## Wildfires – Western US

**Situation:** Of the over 6 million acres burned, the National Watch Center continues to track 13 active fires that have burned over 1.9 million acres from the West Coast to the Rocky Mountains. Mandatory evacuations continue throughout the impacted regions. Current U.S. Air Quality Index ranges from "Moderate" to Very Unhealthy" for Central California to northern Washington state. No unmet needs at this time.

### FEMA Region VIII: 1 FMAG (CO)

- Acreage burned (FMAGs only): 104,157
- Homes / structures threatened: 3,581 / 0
- Homes / structures damaged: 0 / 0
- Homes / structures destroyed: 27 / 29
- Fatalities / Injuries: 0 / 14
- Evacuations: 7,135 (+4,505)

### FEMA Region IX: 6 FMAGs (CA)

- Acreage burned (FMAGs only): 993,558 (+11,251)
- Homes / structures threatened: 19,899 (-29,775) / 192 (-1,079)
- Homes / structures damaged: 71 (-42) / 38 (-47)
- Homes / structures destroyed: 931 (-1,036) / 574 (-573)
- Fatalities / Injuries: 18 / 64
- Evacuations: 25,195 (-662)

### FEMA Region X: 6 FMAGs (OR)

- Acreage burned (FMAGs only): 867,005 (+448)
- Homes / structures threatened: 23,864 (-19,653) / 1,675
- Home / structures damaged: 141 / 154
- Homes / structures destroyed: 1,366 / 1,415
- Fatalities / Injuries: 6 / 24 (+6)
- Evacuations: 75,031

### State Response

- CA /OR EOCs at Full Activation (COVID-19 & Wildfires)

### Federal Response

- Declarations approved – 2 DRs, 1 EM
- Declarations requested – 1 DR
- Region IX RWC monitoring
  - IMAT deployed to CA EOC (Wildfires)
- Region X RRCC at Level II (Wildfires & COVID-19)
  - IMAT deployed to OR EOC
  - ESF-13 activated; 1 IMT (Eugene) and 2 QRTs deployed to OR (Medford & Eugene)
- Public Health Emergency declared in OR
- EPA conducting Rapid Needs Assessments for 2 counties in CA
- MERS: Salem, OR; Springfield, OR; Central Point, OR; Joint Base Lewis-McChord, WA; Mather, CA
- **US&R:**
  - All resources demobilized as of Sep 20

# Wildfire Summary – CA

FEMA

Fire Name (County, ST)	FMAG #	Acres Burned	Percent Contained	Evacuations	Structures (Homes / Other)			Fatalities / Injuries
					Threatened	Damaged	Destroyed	
<b>California (6)</b>								
Creek (Fresno and Madera, CA)	5348-FM-CA	280,425 (+2,057)	30% (+3)	M: 8,337 (-680)	H: 7,759 (-304)	H: 44	H: 566 (+1)	0 / 21
				V: 0	O: 0	O: 27	O: 289 (+1)
