Sources: CDPH, WHO, CDC

The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. *California-Demographics.com made by Cubit - a demographic data provider & census.gov

Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (LA County does not report recovery rates and *Imperial County case data reporting is delayed to the state data source)

Shi'ite pilgrimage fans fears of spreading COVID-19 in Iraq

- Tens of thousands of pilgrims, many without face masks and seemingly oblivious to government health guidelines, cram closely together as they queue for security checks, while giant cooling fans blow air across the crowds.

Lock down or face state of emergency, Spanish government tells Madrid

- Madrid must enforce travel restrictions ordered by the health ministry to limit novel coronavirus outbreaks or the national government will impose a state of emergency that would force it to comply, the government said late on Thursday.

Enrollment Is Dropping In Public Schools Around the Country

- Comprehensive national data aren't available yet, but reporting by NPR and our member stations, along with media reports from around the country, shows enrollment declines in dozens of school districts across 20 states. Large and small, rich and poor, urban and rural — in most of these districts the decline is a departure from recent trends. Over the past 15 years, data from the U.S. Education Department show that small and steady annual increases in public school enrollment have been the rule.
