The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. *California-Demographics.com made by Cubit – a demographic data provider & census.gov

Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (* LA County does not report recovery rates)

In Japan, more people died from suicide last month than from Covid in all of 2020. And women have been impacted most

- Experts have warned that the pandemic could lead to a mental health crisis. Mass unemployment, social isolation, and anxiety are taking their toll on people globally.
- In Japan, government statistics show suicide claimed more lives in October than Covid-19 has over the entire year to date. The monthly number of Japanese suicides rose to 2,153 in October, according to Japan's National Police Agency. As of Friday, Japan's total Covid-19 toll was 2,087, the health ministry said. https://www.cnn.com/2020/11/28/asia/japan-suicide-women-covid-dst-intl-hnk/index.html?utm_term=link&utm_medium=social&utm_source=fbCNN&utm_content=2020-11-29T21%3A31%3A15&fbclid=IwAR0ntY-aai4xxjBQ2M1VbpTKEuQm62XsIEFoK75SYbuxMN2mVFWCEjUH_H0

Japan recorded over 2,100 suicides in October
After decreasing in recent years, monthly suicides rose to their highest number since May 2015.

North Korean leader Kim Jong Un, family given experimental coronavirus vaccine from China, analyst says

- The Kims were vaccinated "within the last two to three weeks thanks to a vaccine candidate supplied by the Chinese government," Harry Kazianis, a North Korea expert at the Center for the National Interest think tank in Washington, wrote in an article for the online outlet 19FortyFive.
- Kazianis added that it's unclear which Chinese company provided its COVID-19 vaccine candidate or if it was proven to be safe.

Mexico in 'bad shape' with coronavirus pandemic, WHO chief warns

- The head of the World Health Organization said that "Mexico is in bad shape" with the pandemic and urged its leaders to be serious about the coronavirus and set examples for its citizens.
- WHO Director-General Tedros Adhanom Ghebreyesus's comments came Monday as Mexico's death toll rose to 105,940 -- the fourth highest in the world -- with 1,113,543 confirmed cases of the new coronavirus. The country's actual numbers are believed to be much higher partly because of low testing levels.
- "The number of increasing cases and deaths in Mexico is very worrisome," he said in a press briefing.

Coronavirus: Netherlands makes face masks mandatory indoors

- The country is one of the last in Europe to introduce such a measure.
- The rule will apply to those over the age of 13 in public buildings such as shops, railway stations and hairdressers from Tuesday.
- The Netherlands has been one of the countries worst affected by Europe's second wave of Covid-19.

Lawmakers unveil bipartisan $900 billion coronavirus stimulus package as stalemate drags on

- The roughly $908 billion proposal includes $288 billion in small business aid such as Paycheck Protection Program loans, $160 billion in state and local government relief and $180 billion to fund a $300 per week supplemental unemployment benefit through March, according to a draft framework. It would put $16 billion into vaccine distribution, testing and contact tracing, funnel $82 billion into education, put $45 billion into transportation and allocate funds for rental assistance, child care and broadband.

'Fake news' about a Covid-19 vaccine has become a second pandemic, Red Cross chief says

- Francesco Rocca, president of the International Federation of Red Cross and Red Crescent Societies, said in a virtual briefing to the UN Correspondents Association on Monday that governments and institutions needed to implement measures to combat growing mistrust and misinformation.
- "To beat Covid-19, we also need to defeat the parallel pandemic of mistrust that has consistently hindered our collective response to this disease, and that could undermine our shared ability to vaccinate against it," he said.

More CA Restrictions, Stay-Home Orders Possible: Newsom

- Some counties in the most-restrictive purple tier of California's COVID-19 risk assessment system may see additional restrictions as part of a "deep purple" stay-at-home order, Gov. Gavin Newsom announced Monday.
- The stay-at-home order could be enacted in counties that are experiencing particularly concerning trends when it comes to hospitalizations and intensive care unit capacity, he said. It will be more akin to the stay-at-home order issued at the onset of the pandemic with modifications.
- "If these trends continue, we're going to have to take much more dramatic — arguably drastic — action," Newsom said.

COVID-19 Hospitalizations Set New High In Riverside County

- Hospitalizations are also spiking across the state. Riverside University Health System reported 585 COVID-19 hospitalizations Monday, including 129 patients in ICU. RUHS does not release weekend updates, but on Friday 498 COVID-19 hospitalizations were reported, including 115 patients in ICU.
- During the July coronavirus surge, Riverside County reached a daily hospitalization figure of 550 COVID-19 patients; ICU admissions peaked at 167 patients.

Riverside County's hospital was losing $1 million a week. How's it doing now?

- Seven years ago, Riverside County Regional Medical Center was in critical condition. The county-run hospital was losing $1 million a week. The Board of Supervisors replaced management and spent $26 million on a consultant to turn things around.
- Today, Riverside University Health System – Medical Center, is more stable. In March opened a three-story, 200,000-square-foot addition.
- Challenges remain for the 439-bed hospital, which employs more than 3,000 and serves as a safety-net health care provider for the county's poorest.

Information

Cal/OSHA's COVID-19 Emergency Temporary Standard Approved and Immediately Effective

- Earlier today, we shared an update about Cal/OSHA's fast-moving rulemaking for an emergency COVID-19 prevention rule, along with a detailed summary of how we got here, as well as an outline of what the California rule will require.
- We wanted to give you an update as soon as we heard, and we just heard… OAL has officially approved Cal/OSHA's emergency COVID-19 prevention regulation. OAL's website was just updated with this entry:

  https://oshadefensereport.com/2020/11/30/cal-oshas-covid-19-emergency-temporary-standard-approved-and-immediately-effective/

TITLE 8, DIVISION 1, CHAPTER 4

Subchapter 7. General Industry Safety Orders

Amend Section 3205 to read:

§ 3205. ~~"Shall" and "Should." [Repealed]~~ COVID-19 Prevention.

(a) Scope.

(1) This section applies to all employees and places of employment, with the following exceptions:

(A) Places of employment with one employee who does not have contact with other persons.

(B) Employees working from home.

(C) Employees when covered by section 5199.

(2) Nothing in this section is intended to limit more protective or stringent state or local health department mandates or guidance.

Coronavirus Pandemic Whole-of-America Response

Medical Supplies and Equipment

- As of Nov. 27, FEMA, HHS and the private sector coordinated delivery of or are currently shipping: 373.4 million N95 masks, 1.5 billion surgical and procedural masks, 78.7 million eye and face shields, 641.2 million gowns and coveralls and over 36.5 billion gloves.
- As of Aug. 7, FEMA delivered 30,458 medical supplies to nursing homes to 52 states and territories. One hundred percent of scheduled shipments have been made.
  - FEMA coordinated two shipments totaling a 14-day supply of personal protective equipment to all 15,400 Medicaid and Medicare-certified nursing homes.
  - Shipments are meant to supplement existing efforts to provide equipment to nursing homes.
- In support of the Department of Veterans Affairs, FEMA coordinated shipments of more than 8.1 million N95 respirator masks, 500,000 surgical masks, more than 3.3 million gloves, 595,360 face shields and 30,000 surgical gowns to facilities across the country.
- As of Nov. 27, the federal government has approximately 152,638 total ventilators available in the Strategic National Stockpile.
- To date, FEMA, HHS and the Department of Homeland Security (DHS) Cybersecurity Infrastructure and Security Agency (CISA), along with other federal agencies, processed and distributed nearly 350 million cloth face coverings.
  - Nearly 150 million of those went to critical infrastructure workers, others went to State, Tribal, Territorial, Voluntary Organizations Active in Disasters (VOAD) partners/stakeholders and other government partners.

Testing

- As of Nov. 27, CDC, state, local public health labs and other laboratories have tested more than 188.3 million samples.
  - As of Nov. 24 the FDA issued 291 individual emergency use authorizations for test kit manufacturers and laboratories, including 59 antibody tests and 7 antigen tests.
- As of July 31, all 41 original Community-Based Testing Sites have transitioned to state management (29) or have closed (12) in consultation with the states.
  - As of Aug. 4, 398,300 samples were collected at federally supported Community-Based Testing Sites.
- HHS has established a public-private partnership with pharmacy and retail companies to accelerate testing.
  - As of Nov. 30, Under the CBTS public-private partnership, there are currently 1,857 live sites in all 50 states and Washington, D.C. and Puerto Rico are conducting testing.
  - Over 5.2 million samples were processed at public-private partnership testing sites.

Federal Funding

- As of Sept. 30, all 50 states, five territories, the Seminole Tribe of Florida and Washington, D.C., were approved for major disaster declarations to assist with additional needs identified.
  - As of Sept. 30, there are 89 tribes working directly with FEMA: 45 tribes that are direct recipients with emergency declarations and 44 tribes that are recipients under state declarations. One tribe, the Seminole Tribe of Florida (STOF) is, a direct recipient with a major disaster and an emergency declaration,
  - A tribal government may choose to be a subrecipient under a state receiving FEMA assistance, or to choose to be a direct recipient of FEMA.
  -

- As of Nov. 27, FEMA obligated over $55.7 billion in support of COVID-19 efforts. This support includes:
  - Emergency Food and Shelter: $200 million
  - Temporary Medical Facilities including medical personnel, mortuary and ambulance services: over $2 billion
  - PPE including medical supplies and pharmaceuticals: $3.9 billion
  - National Guard: $2.7 billion
  - Public Assistance Emergency Protective Measures (Non-PPE): $3 billion
  - Commodities: $36 million
  - Crisis Counseling: $406 million
  -
- On August 8, 2020, President Trump made available up to $44 billion from FEMA's Disaster Relief Fund to provide financial assistance to Americans who have lost wages due to the COVID-19 pandemic. To learn more about FEMA's lost wages supplemental payment assistance, visit: https://www.fema.gov/fact-sheet/fema-lost-wages-supplemental-payment-assistance.
  - Over $42 billion made available to 49 states and two territories, and Washington, D.C. through the Lost Wages Assistance program (see attachment)

Additional Federal Support
- As of Nov. 30, FEMA has 1,260 employees supporting COVID-19 pandemic response out of a total 20,831 agency employees ready to respond to other emergencies should they occur.
- To date, the president has approved 49 National Guard requests for federal support for the use of National Guard personnel in a Title 32 duty status through Dec. 31.
  - As of Nov. 27, 18,849 National Guard troops have activated in T-32 duty status and 1,227 troops have activated in State Active Duty status to help with testing and other response efforts.
- As of Nov. 23, 7,763 CDC personnel are supporting the outbreak response.
- As of Nov. 25, HHS has 245 (plus about 600 for Operation Warp Speed) personnel supporting the COVID-19 response.
- As of Nov. 30 127 agencies across 30 states, the District of Columbia, three tribes and one U.S. territory have used FEMA's Integrated Public Alert and Warning System (IPAWS) to send a total of 530 alerts containing information on COVID-19 to cell phones and other wireless devices via the Wireless Emergency Alert system, and 102 alerts to radios/televisions via Emergency Alert System.
