The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CaIREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. \*California-Demographics.com made by Cubit - a demographic data provider & census.gov

Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (\* LA and Mono County does not report recovery rates)

### **South Korea's Health Minister Describes Seoul As A 'COVID-19 War Zone'**

- South Korea is awaiting new social distancing measures, due to take effect Tuesday evening, as earlier measures have failed to bring new coronavirus case numbers down. The government warns of an impending crisis, brought on by a third wave of infections.
- "The capital area is now a COVID-19 war zone," Health Minister Park Neung-hoo warned Monday at a government meeting. Seoul and its environs are home to about half the country's population, and most of the recent infections.

### **33 million Californians wake to new stay-at-home orders as coronavirus cases overwhelm hospitals**

- More than 33 million people in California will wake up Monday to new orders from the government not to leave their homes for at least the next three weeks except for essential purposes, forcing restaurants to offer take-out only while limiting retailers to 20% capacity as a surge of new coronavirus cases threatens to overwhelm hospitals.
- The new rules took effect just before midnight for Southern California and a large swath of the Central Valley, triggered after more than 85% of beds in intensive care units were occupied in those regions.

## The Regional Stay Home Order

The Regional Stay Home Order announced December 3, 2020, will go into effect within 24 hours in regions with less than 15% ICU availability. It prohibits private gatherings of any size, closes sector operations except for critical infrastructure and retail, and requires 100% masking and physical distancing in all others.

<https://www.gov.ca.gov/wp-content/uploads/2020/12/12.3.20-Stay-at-Home-Order-ICU-Scenario.pdf>

The Limited Stay Home Order, which applies to counties in the Widespread (purple) tier, is in effect from November 21 to December 21, 2020. It may be modified or extended. Read more about [California's Limited Stay At Home Order](#) on the California Department of Public Health's website.

The Regional Stay Home Order would be in effect for 3 weeks after the trigger and instructs Californians to stay at home as much as possible to limit the mixing with other households that can lead to COVID-19 spread. It allows access to (and travel for) critical services and allows outdoor activities to preserve Californians' physical and mental health. This limited closure will help stop the surge and prevent overwhelming regional ICU capacity.

In any region that triggers a Regional Stay Home Order because it drops below 15% ICU capacity, the following sectors must close:

Indoor and outdoor playgrounds  
Indoor recreational facilities  
Hair salons and barbershops  
Personal care services  
Museums, zoos, and aquariums  
Movie theaters  
Wineries

Bars, breweries, and distilleries  
Family entertainment centers  
Cardrooms and satellite wagering  
Limited services  
Live audience sports  
Amusement parks

The following sectors will have additional modifications in addition to 100% masking and physical distancing:

**Outdoor recreational facilities:** Allow outdoor operation only without any food, drink or alcohol sales. Additionally, overnight stays at campgrounds will not be permitted.

**Retail:** Allow indoor operation at 20% capacity with entrance metering and no eating or drinking in the stores. Additionally, special hours should be instituted for seniors and others with chronic conditions or compromised immune systems.

**Shopping centers:** Allow indoor operation at 20% capacity with entrance metering and no eating or drinking in the stores. Additionally, special hours should be instituted for seniors and others with chronic conditions or compromised immune systems.

**Hotels and lodging:** Allow to open for critical infrastructure support only.

**Restaurants:** Allow only for take-out, pick-up, or delivery.

**Offices:** Allow remote only except for critical infrastructure sectors where remote working is not possible.

Places of worship and political expression: Allow outdoor services only.

**Entertainment production including professional sports:** Allow operation without live audiences. Additionally, testing protocol and "bubbles" are highly encouraged.

The following sectors are allowed to remain open when a remote option is not possible with appropriate infectious disease preventative measures including 100% masking and physical distancing:

Critical infrastructure  
Schools  
Non-urgent medical and dental care  
Child care and pre-K

There has been an unprecedented increase in COVID-19 cases in California. Reducing movement and mixing between people is critical to lowering transmission, hospitalizations, and deaths.

As of November 21, 2020, the California Department of Public Health (CDPH) instituted a Limited Stay Home Order, requiring that all individuals in counties in the Widespread (purple) tier be at home by 10:00 PM, and stay there until 5:00 AM the next day. Exceptions include, for example:

- Individuals going home or to their workplace
- Individuals getting medical assistance
- Those who work in critical infrastructure during these hours
- Unsheltered persons

Interactions during these hours are usually social in nature, and reducing those interactions helps reduce the spread of COVID-19. This advisory is in effect until December 21, 2020, though that may be modified or extended. Read more about California's Limited Stay At Home Order on the California Department of Public Health's website.  
<https://covid19.ca.gov/stay-home-except-for-essential-needs/>

### **About COVID-19 restrictions**

<https://covid19.ca.gov/stay-home-except-for-essential-needs/>

## SAHO ICU bed % available as of December 6, 2020 for the 5 regions:

Northern California	26.5%
Bay Area	24.1%
Greater Sacramento	18.2%
San Joaquin Valley	<b>6.6%</b>
Southern California	<b>10.3%</b>

For regions under 15%, the Regional Stay Home Order goes into effect Sunday, December 6, 2020 at 11:59 PM.

The state released a map of the five regions being measured. They are:

- **Northern California:** Del Norte, Glenn, Humboldt, Lake, Lassen, Mendocino, Modoc, Shasta, Siskiyou, Tehama, Trinity
- **Bay Area:** Alameda, Contra Costa, Marin, Monterey, Napa, San Francisco, San Mateo, Santa Clara, Santa Cruz, Solano, Sonoma
- **Greater Sacramento:** Alpine, Amador, Butte, Colusa, El Dorado, Nevada, Placer, Plumas, Sacramento, Sierra, Sutter, Yolo, Yuba
- **San Joaquin Valley:** Calaveras, Fresno, Kern, Kings, Madera, Mariposa, Merced, San Benito, San Joaquin, Stanislaus, Tulare, Tuolumne
- **Southern California:** Imperial, Inyo, Los Angeles, Mono, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Ventura

# Current tier assignments as of December 1, 2020

Tier assignments may occur any day of the week and may occur more than once a week.
