Sources: CDPH, WHO, CDC, Local County Data

The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. *California Demographics from State Database Blueprint Data Chart 12-15-20 & census.gov . Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (* LA and Mono County does not report recovery rates)

(((TESTING ** (HEALTH_FAC_BEDS_202012091 State database (Bed Capacity Type = INTENSIVE CARE }-"children*" = Total Adult ICU Beds. *** Calculation (ICU beds available/Total ICU Beds) = % of adult ICU Available))) Differences from the state calculations and the ICU information above are because of different filters. The State data filters out specialty care hospitals that don't contribute significantly to COVID care, and I am not sure which ones they are at this time.

WHO calls for more intensified measures to fight UK variant

- The World Health Organization has called on European countries to intensify coronavirus measures as the region deals with a new variant that was first detected in the UK. WHO Europe director Hans Kluge said Thursday that further measures were needed to "flatten the steep vertical line" of rising cases in some countries.
- While the variant appears to spread more easily than others, there's no evidence that it's any more deadly or causes more severe disease. Health officials have also downplayed the possibility that coronavirus vaccines won't work against the variant.

 https://www.cnn.com/world/live-news/coronavirus-pandemic-vaccine-updates-01-07-21/h d6d466c627f1327a9435d9c6d4343133

How the new Covid-19 variants could pose a threat to vaccination

• The new mutations first discovered in the UK and South Africa are spreading fast around the world — and could diminish the effectiveness of the existing vaccines.

https://www.vox.com/22213033/covid-19-mutation-variant-vaccine-uk-south-africa

California urges residents not to travel farther than 120 miles from home

- California officials are urging residents to limit all non-essential travel to within 120 miles from one's home and avoid traveling to neighboring states or countries. Anyone arriving in or returning to the state is urged to self-quarantine for 10 days, the California Department of Public Health (CDPH) said in a statement.
- The recommendations are not mandatory, but the statement said local officials could consider enacting "measures that are more restrictive than this statewide order."

California Funeral Homes Run Out Of Space As COVID-19 Rages

- "I've been in the funeral industry for 40 years and never in my life did I think that this could happen, that I'd have to tell a family, 'No, we can't take your family member,'" said Magda Maldonado, owner of Continental Funeral Home in Los Angeles.
- Continental is averaging about 30 body removals a day six times its normal rate. Mortuary owners are calling one another to see whether anyone can handle overflow, and the answer is always the same: They're full, too.

Health Orders Targeted: RivCo Lawmaker Introduces Legislation

- Sen. Melissa Melendez, Lake Elsinore, Monday introduced legislation Senate Bill 102 would specifically block regulatory boards within the California Department of Consumer Affairs and the Department of Alcoholic Beverage Control from suspending or revoking licenses and imposing financial penalties for entities' non-compliance with the state's public health orders.
- Melendez alleges, "Business owners are draining their finances to comply with COVID regulations, and the governor has continued to change the rules with no data to support his mandates. Now small businesses are facing fines and penalties as they try to stay afloat and keep their lifelong dreams alive."

Coronavirus Pandemic Whole-of-America Response

Medical Supplies and Equipment

- → As of Jan. 1, FEMA, HHS and the private sector coordinated delivery of or are currently shipping: 422 million N95 masks, 1.7 billion surgical and procedural masks, 91 million eye and face shields, 786 million gowns and coveralls and over 41 billion gloves.
- + As of Aug. 7, FEMA delivered 30,458 medical supplies to nursing homes to 52 states and territories. One hundred percent of scheduled shipments have been made.
- FEMA coordinated two shipments totaling a 14-day supply of personal protective equipment to all 15,400 Medicaid and Medicare-certified nursing homes.
- Shipments are meant to supplement existing efforts to provide equipment to nursing homes.
- → In support of the Department of Veterans Affairs, FEMA coordinated shipments of more than 8.1 million N95 respirator masks, 500,000 surgical masks, more than 3.3 million gloves, 595,360 face shields and 30,000 surgical gowns to facilities across the country.
- + As of Jan. 4, the federal government has approximately 151,168 total ventilators available in the Strategic National Stockpile.
- → To date, FEMA, HHS and the Department of Homeland Security (DHS) Cybersecurity Infrastructure and Security Agency (CISA), along with other federal agencies, processed and distributed nearly 350 million cloth face coverings.
- Nearly 150 million of those went to critical infrastructure workers, others went to State, Tribal, Territorial, Voluntary Organizations Active in Disasters (VOAD) partners/stakeholders and other government partners.

Testing

- ♦ As of Jan. 1, CDC, state, local public health labs and other laboratories have tested more than 248 million samples.
- □ As of Dec. 28, the FDA issued 309 individual emergency use authorizations for test kit manufacturers and laboratories, including 63 antibody tests and 11 antigen tests.
- → As of July 31, all 41 original Community-Based Testing Sites have transitioned to state management (29) or have closed (12) in consultation with the states.
- □ As of Aug. 4, 398,300 samples were collected at federally supported Community-Based Testing Sites.
- + HHS has established a public-private partnership with pharmacy and retail companies to accelerate testing.
- □ As of Jan. 4, Under the CBTS public-private partnership, there are currently 2,789 live sites in all 50 states and Washington, D.C. and Puerto Rico are conducting testing.
- Over 5.6 million samples were processed at public-private partnership testing sites.

Federal Funding

- → As of Sept. 30, all 50 states, five territories, the Seminole Tribe of Florida and Washington, D.C., were approved for major disaster declarations to assist with additional needs identified.
- □ As of Sept. 30, there are 89 tribes working directly with FEMA: 45 tribes that are direct recipients with emergency declarations and 44 tribes that are recipients under state declarations. One tribe, the Seminole Tribe of Florida (STOF) is, a direct recipient with a major disaster and an emergency declaration,
- □ A tribal government may choose to be a subrecipient under a state receiving FEMA assistance, or to choose to be a direct recipient of FEMA.

- + As of Dec. 29, FEMA obligated over \$56.6 billion in support of COVID-19 efforts. This support includes:
- □ Emergency Food and Shelter: \$200 million
- □ Temporary Medical Facilities including medical personnel, mortuary and ambulance services: over \$2 billion
- □ PPE including medical supplies and pharmaceuticals: \$4.2 billion
- □ National Guard: \$3.1 billion
- □ Public Assistance Emergency Protective Measures (Non-PPE): \$3.8 billion
- □ Commodities: \$36 million
- □ Crisis Counseling: \$407 million
- → On August 8, 2020, President Trump made available up to \$44 billion from FEMA's Disaster Relief Fund to provide financial assistance to Americans who have lost wages due to the COVID-19 pandemic. To learn more about FEMA's lost wages supplemental payment assistance, visit: https://www.fema.gov/fact-sheet/fema-lost-wages-supplemental-payment-assistance.
- Over \$42 billion made available to 49 states, four territories, and Washington, D.C. through the Lost Wages Assistance program (see attachment)

Additional Federal Support

- As of Dec. 30, there are 2,767 medical personnel deployed for the COVID-19 response, including HHS National Disaster Medical Teams, Public Health Service staff and 2,217 from the National Guard.
- → As of Jan. 4, FEMA has 1,291 employees supporting COVID-19 pandemic response out of a total 20,831 agency employees ready to respond to other emergencies should they occur.
- → To date, the president has approved 49 National Guard requests for federal support for the use of National Guard personnel in a Title 32 duty status through Dec. 31.
- □ As of Jan. 3, 18,520 National Guard troops have activated in T-32 duty status and 1,041 troops have activated in State Active Duty status to help with testing and other response efforts.
- → As of Dec. 28, 8,072 CDC personnel are supporting the outbreak response.
- + As of Dec. 30, HHS has 225 (plus about 600 for Operation Warp Speed) personnel supporting the COVID-19 response.
- As of Jan. 4, 127 agencies across 30 states, the District of Columbia, three tribes and one U.S. territory have used FEMA's Integrated Public Alert and Warning System (IPAWS) to send a total of 554 alerts containing information on COVID-19 to cell phones and other wireless devices via the Wireless Emergency Alert system, and 102 alerts to radios/televisions via Emergency Alert System.
