Sources: CDPH, WHO, CDC, Local County Data

The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. *California Demographics from State Database Blueprint Data Chart 12-15-20 & census.gov . Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (* LA County does not report recovery rates)

President Joe Biden slams governors for lifting mask mandates, calls it ‘Neanderthal thinking’

- Texas Gov. Greg Abbott and Mississippi Gov. Tate Reeves, announced Tuesday they would allow businesses to reopen at 100% capacity and lift mask mandates.
- President Joe Biden on Wednesday called the decisions a “big mistake.”
- “The last thing, the last thing we need is Neanderthal thinking, that, ‘In the meantime, everything’s fine. Take off your mask. Forget it.’ It still matters,” Biden said.

According to CDC, 96 percent of schoolchildren still unsafe for full-time, in-person learning

- Officials and experts are worried that children are falling behind in their education while learning from home during the coronavirus pandemic.
- The Centers for Disease Control and Prevention have established a set of guidelines for returning to full-time, in-person learning without additional restrictions.
