Sources: CDPH, WHO, CDC, Local County Data, LA Times

The date for which case statistics and hospital data were reported. Hospital COVID data are self-reported through a portal managed by the California Hospital Association and pulled at 2pm. COVID case statistics are reported by local health departments to CalREDIE and are pulled at 2pm. Hospital data and case statistics are integrated by the California Department of Technology and made available through the Open Data Portal the following morning. CA Open Data Portal is at least 24 Hours behind although a backlog of new case reports at the State level has ostensibly been cleared, some County dashboards still contain notes that indicate data are missing. *California Demographics from State Database Blueprint Data Chart 12-15-20 & census.gov. Presumptive active cases - A calculation (Total Cases - Recovered - Dead) (* LA County does not report recovery rates)

India Covid: Delhi builds makeshift funeral pyres as deaths climb

- Staff are working around the clock, while parks and other empty spaces are also being utilized for cremations.
- Families have had to wait hours before being allowed to cremate their dead due to the rise in demand.
- Deaths have been surging in India as a second wave of infections devastates the country.

NEW MASK GUIDELINES

Fully Vaccinated

No mask needed:

Walking, running, hiking or biking outdoors

Small outdoor gatherings

West Virginia Will Pay Young People \$100 To Get Vaccinated Against COVID-19

- The state will offer a \$100 savings bond to everyone between the ages of 16 and 35 who gets vaccinated, Gov. Jim Justice, a Republican, announced at a Monday briefing. It's part of an ongoing push to get shots into the arms of younger residents, who have been largely slow to roll up their sleeves so far.
- "Our kids today probably don't really realize just how important they are in shutting this thing down," Justice said. "I'm trying to come up with a way that's truly going to motivate them — and us — to get over the hump."

<https://www.npr.org/sections/coronavirus-live-updates/2021/04/27/991173625/west-virginia-will-pay-young-people-100-to-get-vaccinated-against-covid-19>

Morning Report: Majority of Schools' COVID-19 Funds Went to Employee Pay

- Over the last year, school districts across San Diego saw an influx of state and federal aid on top of the normal funding they receive.
- Many remained closed. But that did not stop school districts from spending millions of COVID-19 relief dollars on employees, alleviating pressure on their payrolls.

U.S. COVID-19 Vaccine Administration by Vaccine Type

Number of People Fully Vaccinated in the U.S. by COVID-19 Vaccine Series Type

Choosing Safer Activities

	Unvaccinated People	Your Activity	Fully Vaccinated People
Outdoor			
Safest		Walk, run, or bike outdoors with members of your household	
		Attend a small, outdoor gathering with fully vaccinated family and friends	
		Attend a small, outdoor gathering with fully vaccinated and unvaccinated people	
Less Safe		Dine at an outdoor restaurant with friends from multiple households	
		Attend a crowded, outdoor event, like a live performance, parade, or sports event	
Indoor			
Less Safe		Visit a barber or hair salon	
		Go to an uncrowded, indoor shopping center or museum	
		Ride public transport with limited occupancy	
		Attend a small, indoor gathering of fully vaccinated and unvaccinated people from multiple households	
Least Safe		Go to an indoor movie theater	
		Attend a full-capacity worship service	
		Sing in an indoor chorus	
		Eat at an indoor restaurant or bar	
		Participate in an indoor, high intensity exercise class	

Get a COVID-19 vaccine

- Prevention measures not needed**
- Take prevention measures**
- Fully vaccinated people:** wear a mask
- Unvaccinated people:** wear a mask, stay 6 feet apart, and wash your hands.
- Safety levels assume the recommended prevention measures are followed, both by the individual and the venue (if applicable).
- CDC cannot provide the specific risk level for every activity in every community. It is important to consider your own personal situation and the risk to you, your family, and your community before venturing out.

Percent of People Fully Vaccinated with any COVID-19 Vaccine by Age Group and Date Administered, United States

December 14, 2020 – April 27, 2021

At Least One Dose Fully Vaccinated

Age data was available for 99% of vaccinations. Texas has been excluded from all calculations on this page.*

People fully vaccinated; total count represents the number of people who have received a dose of a single-shot COVID-19 vaccine or the second dose in a 2-dose COVID-19 vaccine series. Due to the time between vaccine administration and when reported to CDC, vaccinations administered during the last 5 days may not yet be reported. This reporting lag is represented by the gray, shaded box.
